Letter dated 7th February 1896, No. 1955, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

In reference to the Proceedings of Government and Order thereon quoted in the margin, I have the honor to request the favor of being informed as to whether or not the monthly bills for charges incurred on account of in-patients in the Local Fund dispensaries need be countersigned by Deputy Commissioners, as some of them apparently object to being called upon to countersign them.

Nos. 8640-9—Cir. 137, 10955-64—L. 975, 2246 55—L. 227 and 3961-3—L. F. 113-92, dated 18th October 1889, 8th January, 9th May and 8th September 1892, respectively.

It does not appear to be necessary that they should do so.

No. 9709-18—L. F. 217-93, DATED, BANGALORE, 20TH FEBRUARY 1896.

ORDER THEREON.—Under the authority conveyed in Government Proceedings No. 3961-3—L. F. 113-92, dated 8th September 1892, the bills in question have to be countersigned by the Senior Surgeon, who is in a position to scrutinize the charges and to judge of the urgency or otherwise of each case admitted into the dispensary.

No. 9177-85—L. F. 137-92, DATED, BANGALORE, 8TH FEBRUARY 1896.

ORDER THEREON.—In supersession of the existing orders in regard to works executed by the Revenue Department, the Government are pleased to authorize the Presidents of all Municipal and Local Fund Boards to sanction, on their own authority, estimates for all works, original or repairs, up to the limit of Rs. 500. In future a monthly * statement of sanctions accorded (one for Municipal and another for Local Fund Works) should be submitted to Government for information, another copy thereof being transmitted simultaneously to the Comptroller in lieu of notifications of sanction, the submission of which will be discontinued from 1st March 1896. To meet the cost of such works, for which due provisions should be made in the Annual Budgets, lump-sum appropriations will, on application, be made by Government from time to time.

*(A & B)

2. The Deputy Commissioners are empowered to delegate their powers in regard to the supervision and sanction of works to an Assistant Commissioner, notifying such delegation to this office from time to time.

3. For each work costing Rs. 500 and upwards, the Presidents of Municipal and Local Fund Boards will continue to submit as heretofore a detailed estimate accompanied by plans.

4. The completion reports will, as usual, continue to be submitted to the office of the Comptroller.

5. The Deputy Commissioners of Districts are requested to submit quarterly to Government a report accompanied by a statement showing each work, whether completed or in progress, inspected during the previous quarter by them or their Assistants or both during their periodical tours, also noting what works have been carried out under the special supervision of the non-official members of the Municipal and Local Fund Boards in accordance with the instructions conveyed in Government Proceedings No. 2101-12—L. F. 379-92, dated 12th August 1895.

6. The procedure above laid down does not do away with the necessity for the Supplemental Budgets and re-appropriation statements which will continue to be submitted to Government for their special sanction.

Proceedings of the Government of Mysore,

READ :—

1. Letter, dated 8th December 1895, No. 467—271, from the Deputy Commissioner, Chitaldrug.

I have the honor to submit for the orders of Government, petition dated 8th October last, from the Madigars of Harihar and the vernacular papers on the subject.

(2). There is in the enclosed file of papers a sketch of lands near the Harihar Railway from which it will be seen that Survey Nos. 9, 10, 76 and 77 have been acquired for the construction of a rest-house for the use of His Highness the Maharaja during his tours on His Highness' way to and from Northern India. I do not know whether this project will be carried out in the near future.

(3). The old Madigarhatti was scattered over the land marked M on the sketch, and it was removed on account of its insanitary condition, and as being in close proximity to the station-yard and to the proposed rest-house. The Madigars built their huts in the place marked C, but now find the ground unsuitable for them. It is exposed and low lying and is not free from the objection of proximity to the station and rest-house.

(4). I examined the surroundings of Harihar very carefully more than once and was unable to find a spot which could be given to the Madigars for building their huts. The rest-house, if built, will be located nearer the Travellers' bangalo than the Harapanahalli road, and the huts, if permitted to be re-built on the old site, will not be so very near. They will be at the same time at a safe distance from the station and the quarters of the railway staff. The Madigars, moreover, promised to build their huts in a walled enclosure, and upon a plan laid down by Government, and to keep the premises as clean as possible, doing their objectionable trade in a spot about half a mile beyond the railway bridge across the river.

(5). The sweepers for the town are drawn from this class and the Madigars are necessary for the convenience of the towns-people. It is therefore inadvisable to do anything that will have the effect of inducing them to leave the town and seek livelihood in villages. I, therefore, solicit instructions as to whether permission may be given to them to re-build their huts on the old sites, subject to the conditions laid down in the preceding para.

2 Government Proceedings, dated 17th January 1896, No. 8005-6—L. F. 190-94.

READ :—

Letter, dated 8th December 1895, No. 467-271, from the Deputy Commissioner of the Chitaldrug District, submitting a petition, dated 8th October 1895, from the Madigars of Harihar and vernacular papers connected with the site acquired from Madigars for the construction of a rest-house for the use of His Highness the Maharaja of Mysore, during his tours and for the sanitary improvements of the town, and soliciting instructions as to whether permission may be given to Madigars to re-build their huts on the old sites on certain conditions.

No. 8005-6—190-94, dated, Bangalore, 17th January 1896.

ORDER THEREON.—The Government apprehend that to permit Madigars to re-build their huts on old sites acquired from them would be objectionable on a sanitary point of view and would also injuriously affect the existing as well as the projected improvements of the town. Before, however, passing orders on the present proposal of the Deputy Commissioner the Government would wish to be favored with the opinion of the Senior Surgeon and Sanitary Commissioner to whom the papers will be forwarded, to be obligingly returned with his opinion.

3. Letter from the Senior Surgeon and Sanitary Commissioner, dated 29th January 1896, No. 1865, with letter, dated 27th idem, No. A., from the Civil Surgeon, Shimoga.

With reference to the Proceedings of Government and Order thereon No. 8005-6—L. F. 190-94, dated 17th instant, with one file of vernacular papers (herewith returned), I have the honor to forward the enclosed letter A, dated, Camp Harihar, 27th idem, from the Civil Surgeon, Shimoga, and to state that I approve of the recommendations made by the Civil Surgeon in the 7th and following paras of his letter.

Camp letter A, dated 27th January, from the Civil Surgeon, Shimoga

As desired in your No. 1736, dated 18th instant, with enclosures *re* Government Proceedings No. 8005-6—L. F. 190-94, dated 17th January 1896, in regard to permitting Madigars of Harihar to re-build their huts on the old sites acquired from them, I have the honor to report as under—

(2). The site acquired from the Madigars is *not* for the purpose of building a rest-house for His Highness the Maharaja of Mysore while on tour. It (the site selected) is situated in portions of Survey Nos. 10 and 77 as shown by me in the enclosed map. The old site of the Madigars is in too close a proximity to the town, and the surroundings are not at all worthy of such a building to stand in relation thereto.

(3). It appears to me that the land was acquired for the purpose of effecting some sanitary improvements by opening a road therein and afford facilities to fill in the shallow tank that was adjoining

it and possibly in view also to afford house sites for the purpose of extending the town. A road has been opened out and a communication established between a portion of the town and the railway premises. The filling in of the tank has not been done and should be effected as early as convenient.

(4). The portion shown by a red ink boundary mark (*C.* in Survey No. 65) is where the Madigars are now located. They complain bitterly of the site as being badly exposed to wind and rain. Some 25 persons died of fever and other ailments from amongst them since their removal to this site, and superstitious as these people are, every little incident of ailment is attributed by them to the ill-will of their deity for having come here, and unless some redress is afforded to them I am sure that they will leave the town in a body and go to another town or village. I am informed by the Amildar (Mr. Venkatesaiya) that these people once went on a strike and would not do the scavengering and sweeping of the town, and once they refused to carry away a dead body found floating in the river.

(5). They object to go to the site marked B in Survey No. 63 as being too near the river and objectionable in so far that during heavy floods their houses are likely to be inundated and at ordinary times, when they themselves go away to outlying villages and so on for work, their children might go to play in the river and fatal accidents may be caused them; also that it is towards their own burial grounds.

(6). Nos. 8, 81 and 2 are temple and other inam lands held by Brahmins and may be difficult to procure. The Madigars say that should these lands be acquired and given to them, they would not go there as they would be under the ill-will of the temple deity and the Brahmins.

(7). I see no objection whatsoever from a sanitary or any other point of view to allow these Madigars to build their huts in Survey No. 75 land and in a portion of No. 10 ticked off by me in the map. Here they will be at one end of the town, and considering that there are over two hundred waste house sites inside the town the day on which the town will extend eastwards of the shallow tank is far off from now. The necessary road passing through lands Nos. 75 and 10 has been opened, and there are roads to the north and east of this site.

(8). In granting this concession, however, I would suggest the following limitations.

1st.—That these people be not allowed to build houses to the west of the newly made road in survey Nos. 75 and 10.

2nd.—That about 50 to 80 feet of ground be left clear by them by the side of the newly made road referred to above and the Honnali-Harpanhalli and Bangalore-Dharwar roads.

3rd.—That they build their huts not irregularly and any how but in 3 or 4 regular lines and that leaving a sufficient space all round, these lines be enclosed by a wall with the gate way opening eastwards, *i.e.*, facing the Honnali-Harpanhalli road.

4th.—That after the filling in of the shallow tank drainage and sewerage of these Madigar huts be carried through a drain proposed to be constructed in this filled-in-portion, or so allowed as to fall into and course through the drain *A* shown in the map.

5th.—These Madigars be made to fetch water from the river to the north of the bridge on the Bangalore-Dharwar road.

(9). With these limitations I beg to submit that these Madigars (Bitti Begars) a very useful class of people in more ways than ten deserve consideration at the hands of the Government and may be kindly allowed to build their huts on the land above stated.

(10). I consulted the Municipal members, the raiyats living in the portion of the town immediately to the south of Survey No. 75 land and the Deputy Amildar and others, and without a dissentient voice all of them are for the Government graciously granting the Madigars their request with the limitations mentioned above.

(11). To the best of my belief and judgment according permission to the Madigars to build their huts as described above is in no way objectionable from a sanitary point of view and would not injuriously affect the existing as well as the projected improvements of the town. Enclosures returned.

No. 9245-6—L. F. 190-94, DATED, BANGALORE, 10TH FEBRUARY 1896.

ORDER THEREON.—**Government approve of the Civil Surgeon's suggestion concurred in by the Sanitary Commissioner, and direct that the Madigars at Harihar be permitted to build their huts on Survey No. 75 and part of Survey No. 10.**

The Deputy Commissioner is requested to pay particular attention in the matter of enforcing the sensible and practical suggestions of the Civil Surgeon contained in paras 7 to 11 of his letter and intended to secure sanitation in the new Madigar palya.

V. N. NARASIMMIYENGAR,
General Secretary.

READ:—

Letter from the Deputy Commissioner of Mysore, dated 20th January 1896, No. 810, submitting the District Fund Budget Estimates of the French Rocks Circle for 1896-97, together with a copy of the Proceedings of the Local Fund Board, dated 18th December 1895.

No. 9323-7—L. F. 92-95, DATED, BANGALORE, 12TH FEBRUARY 1896.

ORDER THEREON.—The Local Fund Board of the French Rocks Circle estimate the income under District Funds for 1896-97 at Rs. 43,855 against Rs. 41,910 the sanctioned estimate for 1895-96 and Rs. 43,688 the actuals of 1894-95.

2. The increase in the estimate, which is chiefly under "76 per cent of the cess" and "Fines for Cattle Trespass," is based upon the actuals of 1894-95 The estimate is passed.

3. The opening balance is given at Rs. 10,000, while, according to Comptroller's accounts, the actual balance on 1st July 1895 was Rs. 26,198. Adding to this the estimated receipts for 1895-96 (Rs. 41,910), the total is Rs. 68,108. Deducting from this the estimated expenditure for 1895-96 (Rs. 47,351), the estimated closing balance on 30th June 1896 may be safely put down as Rs. 20,577.

4. Including the said balance, the sum available for expenditure is Rs. 64,432, of which the expenditure proposed amounts to Rs. 46,826.

5. *Public Works to be executed by the Public Works Department.*—Under this head a sum of Rs. 34,576 is entered. This includes a lump sum provision of Rs. 1,000 under "Reserve," which is allowed to stand; but no portion thereof should be spent without obtaining the previous sanction of Government in the Public Works Department. The estimate for a musafirkhana at Melkote should be revised with reference to Government Proceedings No. 8204-13—L.F. 50-94, dated 20th January 1896.

6. *Public Works to be executed by the Revenue Department.*—The provision of Rs. 4,000 made in the Budget under "B. Public Works to be executed by the Revenue Department" is passed subject to detailed estimates being submitted for sanction.

7. Under "C. Civil charges" Rs. 8,450 is proposed. This includes Rs. 60 and Rs. 12 on account of the pay of the Native Pandit and lighting charges of musafirkhanas. The former will be disallowed for reasons given in para 5 (*b*) of Government Proceedings dated 4th April 1895, No. 16312-6—L. F. 147-94, and the latter will be retained, as it is required for the purchase of cheap lamps sanctioned in Government Proceedings, dated 21st December 1895, No. 7189-97—L. F. 71-94. The omission of any provision under "Feeding Amrut Mahal bulls" and "Feeding impounded cattle" requires explanation.

8. The other items call for no remarks and are passed.

9. The Budget Estimates for 1896-97, as above sanctioned, will stand as per details given in the annexed appendices of which an abstract is given below:—

		Rs.
1. Estimated opening balance on 1st July 1896		20,577
2. Estimated receipts for 1896-97		43,855

REVENUE.

Proceedings of the Government of Mysore.

READ AGAIN :—

Letter No. 110—92, dated 29th July 1895, from the Deputy Commissioner of the Shimoga District, with enclosure.

His docket No. 14293—R. 2072 of the 8th March 1895, relating to the sale of service inam land assigned to the office of madiga of Kubatur village in the Sorab Taluk.

Has the honor to enclose a *precis* of the whole question prepared by the 1st Assistant Commissioner. It will be observed from para 7 thereof that the unauthorized sale of the lands by the Munsiff was, soon after the sale, brought to the notice of the then Deputy Commissioner, who appears to have contented himself with refusing permission for the transfer of the khate to the auction purchasers.

2. Though the talwars have so far gone on performing their duties without takrar, receiving the aya paid by the villagers, the restoration of the umbli lands to the talwars is unnecessary in order not only to provide a permanent source of remuneration to the talwar, but also to make generally known and remembered in these malnad tracts the principle that alienation of umbli lands is not permissible.

3. It will also be observed that no waste lands are available in the village in question to be granted to the talwars in umbli in lieu of these lands, and even if they were, fresh waste lands are scarcely likely to be as good as kadim occupied lands.

4. It is, therefore, recommended that both on principle and under the circumstances of the case the Government may be pleased to permit the summary resumption of the lands as 12 years have not yet elapsed since the Court sale or encroachment by the vendees.

5. The enclosures of the above have been herewith returned.

Precis by the 1st Assistant Commissioner—

1. In the village of Kubatur in the Sorab taluk, there are two survey numbers, *viz.*, No. 200 assessed at Rs. 5-4-0, and No. 77 assessed at Rs. 3-8-0, subject to the payment of Rs. 7 jodi, leaving 1-12-0 as jari. These two lands have been assigned to the office of talwar of the said village. The original talwar was one Hanuma after whose death his son Hanuma was doing the duty till 1889 (*vide* Amildar's No. 552 of 4th September 1889). Hanuma has since deserted the village, but his four uncles Fakira, Hutchabassaiya, Karibasaiya and Maradi have been performing the duty.

2. Basaiya, the father of the deceased hakdar Hanuma, had contracted a debt of Rs. 80 from one Barmajja on the security of these two umbli lands and other property. After the death of the debtor Basaiya, the creditor Bharmajja sued his son Hanuma, the deceased talwar, for the money and obtained Sagar Munsiff's decree therefor. In execution Case No. 366 of 1883 of that Court, the two service lands were in satisfaction of the decree attached and sold on 18th December 1883. Survey No. 77 was purchased by one Holiyappa and Survey No. 200 by the judgment-creditor Bharmajja himself. The Court confirmed the sale and issued certificates to the two purchasers on 18th March 1884.

3. In July 1884, the two purchasers moved the Amildar for the transfer of the khate to their names. On 28th July 1884, the Amildar re-

ported the case (No. 383) to the Deputy Commissioner for orders and brought to the Deputy Commissioner's notice that the lands were service inam lands. In his reply, No. 437 of the 6th August 1884, the then Deputy Commissioner observed that the lands were not liable to Civil Court sales within the meaning of para 5 of the General Circular No. 5 of the Local Government issued in 1873, and enquired whether the land was shanbhog umbli or patch umbli. The Amildar reported (No. 437, dated 11th August 1884) that it was talwar umbli land. In his hukum No. 420 of the 26th August 1884, the Deputy Commissioner decided that the purchasers were not entitled to the registry of their names in the revenue accounts, and directed the Amildar to inform them that they might make their representation to the Civil Court concerned. This was the proper stage in which the Deputy Commissioner could well have taken the requisite action for restoring the lands to the Government talwar.

4. For the next four years there was no further agitation of the matter. On 11th December 1888, the two purchasers petitioned the Amildar that they received no orders on their former application for the transfer of revenue registry. The then Amildar after some correspondence with his subordinate officers, reported in his Tilla No 552 of the 4th September 1889, that the umbli lands might be treated as fully assessed Sarkar lands, the jari amount for the past and future years being recovered from the purchasers and paid to the talwar doing duty. In answer to this reference, the then Deputy Commissioner enquired whether this was not barabaluty land and where was the title-deed (No. 499 of 17th September 1889). The Amildar replied that the lands were barabaluty service lands and that Inam Department issued no title-deeds for such lands (No 653 of 11th October 1889). The Deputy Commissioner then questioned how the purchasers' applications for transfer of patta were disposed of (Hukum No. 930 of 5th January 1890). The Amildar on 11th July 1890 referred the Deputy Commissioner to his final order of 26th August 1884, negativing the purchasers' request for registry and stated that that order and its previous papers were not forthcoming in the records. The Deputy Commissioner's reply, dated 28th July 1890, was that a search for the missing records should be made, and if they were not found the name of the official through whose carelessness the papers were lost should be reported. An objectionable delay of 28 months occurred in the Amildar's reply to the said reference. On 25th November 1892, the Amildar forwarded extracts from the correspondence registers as to the papers lost and stated that the search for the original papers was unsuccessful, and added that the matter being already decided no further action was necessary beyond giving an endorsement to the purchasers embodying the substance of the said decision. On the 27th March 1893, Mr. Namakal Rao, the sub-Division Officer, enquired in whose enjoyment the umbli lands were, and what the talwar got for his services. In answering this query nearly another year passed away. On the 10th April 1894 the Amildar replied that the purchasers held possession of the lands while the uncles of the registered talwar were performing Government duty receiving miras from the raiyats. The Amildar gave it as his opinion that the purchasers should be dispossessed of the umbli lands and the talwar put in possession of the same. The Sub-Division Officer Mr. Namakal Rao concurred with the Amildar and requested the Deputy Commissioner to move the Government to order the restoration of the lands (*vide* No. 714 of 29th June 1894).

5. In his letter No. 35—29 of the 10th July 1894, Mr. Abdul Rahiman, B.A., the Deputy Commissioner, reported to the Government thus. The lands were sold by the Civil Court in satisfaction of the debt of the hakdars

who deserted the village long ago; their hissedars who joined the office sometime after receive aya from the villages; they set up no claim to the umbli lost by their predecessors; the purchasers obtained possession 10 years ago; the Deputy Commissioner opined that the purchasers should be allowed to continue to hold the lands on full assessment, the same being removed from the head 'umbli' and entered as Government land, and that the difference between the full assessment and the jodi should be recovered from the purchasers with retrospective effect.

6. With reference to the above communication, the Government in No. 14293—R. 2027 of the 8th March last, have put three questions.

(1). Why the fact of sale by the Sagar Munsiff's Court in 1883 was not noticed by the village and taluk officials and prompt action taken for the cancelment of the sale.

(2) Whether in the event of the present talwar being deprived of this inam, the service will yet go on without any inconvenience.

(3) Whether any waste land may and ought to be substituted for the inam land which will be lost if the Deputy Commissioner's proposal is accepted.

7. The present sub-Division Officer in his No. 447 of the 22nd ultimo has answered the above queries. To the first question, he answers that the then patel, shanbhog and talwar are all dead and that their successors cannot explain the omission at this distance of time, and that the judgment debtor had no moral courage to resist the sale. He also adds that the village authorities had scarcely any knowledge of the illegality of the sale. The vernacular records, an epitome of which is contained in the first 4 paragraphs of this memo, show that there was no omission on the part of the taluk officials. The fact of the sale came to their notice within four months after the issue of the sale certificate. They at once reported the matter to the Deputy Commissioner (*vide* Amildar's report No. 383 of 28th July 1884). The then shanbhog of the village has made mention of this fact in his report of January 1889.

To the 2nd question, the Sub-Division Officer says that the deprivation of the inam would give rise to inconvenience in exacting efficient service from the talwars. To the 3rd question, the sub-division Officer merely quotes the Amildar's report that no waste land is available at the village for granting umbli afresh. The sub-division Officer differs from the opinion of Mr. Abdul Rahman, K. B. He urges that the mere imposition of full assessment on the umbli lands will not in the least remedy the evil to the barabaluty service. Having regard to the facts that so far back as 1884 the Deputy Commissioner refused to recognize the title of the auction purchasers, and that the registry of the land still continues in the inam khate of the village, he recommends the resumption of the lands after six months' notice to the said purchasers.

8. The law on the subject of barabaluty lands is contained in paras 2 and 3 of the Government Circular No. 5 of 1872-73, which run thus:—

"The village servants in Mysore have from time immemorial been remunerated in land, money or grain or partly in all. All such emoluments shall be considered as inalienable from the offices to which they are annexed, whether by mortgage, sale, gift or otherwise, and they shall not be liable to attachments or other process in satisfaction of judicial decrees."

In the case of inam lands granted to religious and charitable institutions which I think are analogous to barabaluty umbli lands in many respects, the standing law as conveyed by the Government of India's letter No. 89 of 13th September 1877, is to the effect that whenever it is found that such lands are diverted from the object for which they were granted by means of sale, &c., the revenue authorities shall summarily resume the lands from the purchaser after six months' notice and restore the same to the institution concerned. The principle which governs this rule is that the inam land is annexed to a particular institution, and not assigned to the person managing the institution. The same principle seems applicable to the present case also, in which the umbli land is annexed to a particular Government office and the man doing duty for the time being has no proprietory right thereto. In 1887 a case occured in the Bangalore District. The inam land attached to Malangasha Darga in the Devanhalli taluk was sold under a Court decree and the Deputy Commissioner recommended the cancellation of the inam tenure. The Government held that the alienation of a religious inam by Court or Revenue sale does not differ from that by private contract, and that the Deputy Commissioner must therefore resume and restore the inam to the institution concerned (Proceedings No. 1890—8 of 4th July 1887).

Correspondence ending with Shimoga Deputy Commissioner's No. 110—92, dated the 29th July 1895, recommending the summary resumption of the Madig umbli lands in the Kubatur village, Sorab taluk.

No. 2230 — R.855, DATED BANGALORE, 21ST AUGUST 1895.

ORDER THEREON.—Survey Nos. 77 and 200 part of the Kubatur village, Sorab taluk, are borne on the village accounts as talwar service inam lands, subject to the payment of a jodi of Rs. 1-12-0. The area and assessment of the lands are given in the margin.

Survey Nos.	Extent. A. g.	Assessment Rs.a.p.	Jodi. Rs.a.p.	Jari Rs.a.p.
77 wet	1—14	3-8-0	7-0-0	1-12-0
200 (part) wet	2—18	5-4-0		

2. In satisfaction of a debt of Rs. 80 contracted by Basaiya, the father of talwar Hanuma, on the security of the above lands along with other property, the umbli lands were sold by the Sagar Munsiff's Court on 18th December 1883 at the instance of the decree-holder Bharmajja. No. 77 was purchased by one Holiyappa and No. 200 (part) by Bharmajja himself.

3. Hanuma, son of hakdar talwar Hanuma *bin* Basaiya, did duty till 1889, when he left the village leaving his uncles Fakira and 3 others to look after the work.

4. In 1884 the purchasers at the Civil Court sale obtained sale certificate and applied for a transfer of khate, which the Deputy Commissioner refused to alter.

5. In 1888 the purchasers again renewed their application, and the Deputy Commissioner adhered to his former order of 1884.

6. The lands are in the possession of the purchasers.

7. In July 1894 the Deputy Commissioner recommended that the lands be treated as Sarkari, the difference between the jodi and the full assessment being recovered from the purchasers with retrospective effect.

8. The sub-Division Officer reports that, without the Inam, efficient service cannot be exacted from the present office holders, and that no waste land is available for granting the umbli afresh, and the Deputy Commissioner recommends their being summarily resumed.

9. The lands are certainly liable to be resumed summarily, and, for the reasons given by the Deputy Commissioner this is the only course which ought to be followed under ordinary circumstances. There is no other waste land available in the village to be substituted for this inam, and on principle the

Deputy Commissioner thinks that the Government should permit this tangible act of summary resumption, so that the qualified tenure of such land and its freedom from the processes of Civil Courts may be brought home to the people in that locality, who seem to be quite ignorant of the existing prohibitions regarding this matter. Both these are very cogent reasons and cannot be lightly ignored. But as nearly twelve years have elapsed, any motion through the Civil Courts is out of time and summary eviction by Revenue Officers will directly clash with the proceedings of Civil Courts and cause them to be looked upon with doubt and uncertainty. For this reason it seems advisable that the Deputy Commissioner should send for the parties, explain the nature of their unsafe position to the purchasers and bring about an amicable settlement by arranging for the refund of the purchase money by the present officiating talwars. The amount of the purchase money has not been stated, but, if it is pointed out to the purchasers that they will have to pay the full assessment due for the past twelve years and also lose the lands, it is not improbable that they may reduce their demand. Apart from these negotiations, a notice may also be issued to the purchasers to show cause why they should not be evicted. The result of the Deputy Commissioner's action will be reported for the information of Government, and for the issue of such further orders as may be deemed necessary.

10. The delay which has occurred in this matter on every occasion that the taluk authorities had to make a report, is highly discreditable to the Amildar concerned, and the Deputy Commissioner will call upon him for explanation and submit it with his own remarks. The loss of record is also not a very pleasant feature in the case, and the responsibility for it must be fixed upon some one, and due and proper notice taken of his negligent conduct.

Sagar sub-Division Officer's letter No. 227 dated 15th instant.

With reference to your letter No. 508, dated 2nd September 1895, requesting the needful being done to the Madig umbli lands of Kubatur village, Sorab taluk, I have the honor to state that the parties appeared before me and amicably settled the matter. Burmappa, the purchaser of umbli land No. 200, restored possession to the Madigars without receiving any compensation for the same. Holiyappa, the purchaser of No. 77, is now dead. His widow, Puttawah, delivered possession of the land on receiving Rs. 20 as compensation from the Madigars. The vernacular records are herewith submitted for further information if required.

Para 2 of letter No. 253, dated 23rd January 1896, from the Meteorological Reporter to the Government of India.

In connection with this, I beg to observe that these monthly rainfall statements are in the first instance used in the preparation of the rainfall section of the monthly weather reviews for the whole of India, published by this office for the information of the Government of India, and the discussion of the rainfall of India is necessarily partial if the monthly rainfall statement of any Province is not received in proper time. The usual time for the preparation of the review is about five weeks after the expiry of a month. The review for November 1895 is now about to be sent to Press. I shall, therefore, be very much obliged if the publication of the monthly rainfall statements of Mysore can be expedited, and the printed bills sent to this office in time to enable this office to utilize the Mysore rainfall data for the review.

Letter No. 595, dated 8th January 1896, from the Deputy Commissioner of the Hassan District.

In forwarding herewith Amildar's reports Nos. 683, dated 23rd October 1895, and 912, dated 9th ultimo, bringing to notice that the kayamguttadar of Hathhanahalli and Siddapura failed to keep the village accounts required by Rule VI of the Mysore Land Revenue Rules in spite of repeated notices to him, I have the honor to state that the kayamguttadar has failed to prepare the accounts himself or to furnish the necessary details to enable those accounts being prepared. His explanation for not furnishing the accounts, recorded below the several notices issued to him, fully shows his obstinacy in disobeying the orders of Government. His allegation that he has not kept any accounts whatever is altogether unworthy of credit, for, without such accounts, it would be impossible to manage a village which consists of several holdings under the occupancy of the raiyats. Under Clause 3 of Section 16 of the Mysore Land Revenue Code, a Deputy Commissioner is authorized to cause such accounts to be prepared by any other person and to levy the cost of such preparation from the holder of the alienated village as if it were a revenue demand. This rule may apply to cases where some data exist from which the accounts form Nos. 14 and 15 or Appendix A can be prepared, but not to a case of the kind now submitted for orders, where the kayamguttadar obstinately refuses to prepare the accounts himself or to furnish the information required for preparing the accounts. If I mistake not, the orders of Government regarding the preparation of Accounts Nos. 14 and 15 for inam villages is similarly evaded in other parts of the Province. Some strict provision would therefore seem necessary to enforce the performance of this duty on the part of Inamdars. The question is how to enforce it. Two alternatives suggest themselves to me. The first is to impose a fine on the recusant Inamdar every year in which he fails to do this duty. The second is to bring the village under Government management, under the provisions of Section 120 of the Mysore Land Revenue Code, introduce the survey settlement into the same and conduct the revenue management thereof, recovering the whole cost from the village. When a survey settlement is introduced into such inam villages the holders of lands therein have, under Section 237, the same rights and privileges as occupants in Government villages. This is doubtless a very violent remedy; and if it is viewed in this light the first alternative above suggested may be adopted.

No. 7289-96—R. 2850, DATED BANGALORE, 13TH FEBRUARY 1896.

ORDER THEREON.—Ordered that a copy of the foregoing communication be forwarded to the Deputy Commissioners of Districts for report to what extent the rule in question has been enforced in their Districts, and how they would propose to deal with such recusant holders of alienated villages.

C. SREENIVASIENGAR,
Secretary.

To—The Deputy Commissioner, Kolar District.

From Colonel J. P. Grant, Superintendent, Mysore Revenue Survey,
To the Chief Secretary to the Dewan of Mysore, No. 215
dated Bangalore, 25th September 1894.

I have the honor to submit the following proposals for the revision of the assessment of the Yelandur Jahgir of the Mysore District into which the Jahgirdar has wisely determined to introduce the survey settlement. The views of Government upon the Jahgirdar's application for the introduction of the survey and settlement appear in Proceedings of the Dewan of Mysore, No. 2270-1, dated 24th February 1889.

2. The tract under report is very small, but at the same time very rich and densely populated. It was given in Jahgir by the British Government to Purnaiya in 1807 in consideration of his undertaking the office of Dewan to the late Maharaja. The Sannad countersigned by Sir John Malcolm is drawn up in highly eulogistic terms and appreciation of the great and faithful services rendered by the grantee. Even in the time of the Vijayanagara Sovereign there is reason to believe that Yelandur was the seat of a wealthy principality and indeed all available past history points to this little tract as one of the richest and most desirable spots in the Province. No doubt the extraordinary advantages of both soil and water, the supply of the latter being described by Mr. Rice (Mysore Gazetteer, Vol. II, Page 283) in 1876 as never failing, led to the selection of the villages under report to form a Jahgir. Although I am unable to accept this statement, as to the perennial character of the water-supply, quite literally, there is no doubt that it lasts far into the hot season and, in the case of one tank, that of Agara, the water-supply may fairly be described as unfailing. Yelandur, although somewhat out of the beaten track and the capital of a border taluk, is only 42 miles distant from Mysore.

3. My Assistant Mr. Narain Rao, who was in charge of classing operations, has drawn up a good descriptive report of the Jahgir and its physical characteristics which I append. This report, viewed along with the sketch map of the Jahgir, which also accompanies, will give a very clear idea of the tract under report. It will be unnecessary for me to follow him at any great length excepting upon points bearing directly upon the immediate subject of the present report.

4. The following is the sub-division of the Jahgir into maguis or hoblis at present recognized although, when the Gazetteer was compiled in 1876, the sub-division was much more minute—

Magui.	Villages.	Alienated or Inam villages.	Total.	Remarks.
1	2	3	4	5
Yelandur	9	2	11	
Yergamballi	6	2	8	
Agara	7	2	9	
Total ...	22	6	28	

5. The cultivated, indeed I may say the culturable, portion of the tract under report all lies in one compact level and well-watered block to the immediate north-west of, but quite distinct from, the Biligirirangan Hills which interfere but little with communications. This range of hills, rising at the highest point to about 5,000 feet above sea level, runs, within the Jahgir, for about ten miles north and south. Teak, sandalwood, honne, matti and other valuable trees are found on their slopes. The only inhabitants of the range are said to be the Soligars whose desultory and shifting mode of cultivation in the forests is wisely tolerated by the

Jahgirdar as otherwise the tract would be quite uninhabited. These Soligars pay no cash to the Jahgirdar but they help, in return for being permitted to cultivate within prescribed limits, to guard the forest and they also render service in the temple on festive occasions. The celebrated temple of Bilgirirangaswami occupies about the highest point in the range and is much resorted to, a road from Yelandur to the foot of the ghats much assisting. A difficult foot-path of about three miles serves to complete the ascent. There was once an easier track up the ghats of about nine miles in length, passable for horses, but it is, I believe, now overgrown with jungle.

Irrigation.

6. The irrigation in the tract under report is remarkble and, in combination with soils of a very high order, renders it very fertile. Of some 4,874 acres of wet land, as now found by survey, no less than 3,337 acres are irrigated either from tanks fed from the Honhole, or from the feeders direct. Only some 1,537 acres of wet land are irrigated from rain-fed tanks. The slight rise of the river banks and the very level character of the country enables the river water to flow naturally into the channels at flood time and when the river water runs very low temporary dams, as in Chamrajnagar, constructed of stakes, mats, sand, &c., are called into requisition. The Agara tank alone is fed by a channel, led from a masonry anikat near Ganaganur. The supply in the Agara tank is stated to be practically inexhaustible. The other wet lands irrigated directly or indirectly from the river have not got so certain a supply of water as Agara in as much as, now and again, as in 1891 and 1892, the volume of water in the river, with inefficient dams, was not sufficient to fill the four tanks of Ambli, Yelandur, Yeriyur and Maddur which are those chiefly concerned. I quite agree with Mr. Narain Rao in thinking that there is no good reason for doubting that the four tanks just mentioned and two others, Avalkandhalli and Upinmole, which are partly dependent on river water, could be raised, in the matter of being fed from the river, to as high a standard as Agara. To render the water-supply to these six tanks as secure as that to Agara, an anikat would, I believe, have to be constructed at a point on the river outside the Jahgir.

Gardens.

Wet lands.

Dry lands.

7. Most of the gardens are dependent on the Honhole and the feeders led from it and some of them are very good but others are hand watered and, on the whole, will not bear such high assessment as the wet lands. The garden crops are chiefly betel-leaf, supari, cocoanut and mulberry. There are patches of Panvel in almost all the villages. In wet lands sugar-cane is raised under the larger tanks and rice alone under the smaller ones. Mulberry is also grown in wet lands. Indeed this crop is grown in all descriptions of land, garden, wet and dry. The dry lands also are very valuable, the soils for the most part occupying a very high position in our scale. Consequently such crops as jola, the staple, togari, Bengal gram and mulberry are grown, but cotton, although the soils are very favorable to that crop, is not grown at all. Only towards the hills are the soils red and sandy and, even there, they are very good of their kind. Ragi, as might be expected from the general character of the soils, is comparatively little grown.

Climate.

8. The rainfall is stated to vary from 10 to 35 inches and in so small a tract is of course pretty uniform. An average of about 25 inches may be considered fairly correct. Certainly the variations in the rain-fall, if we can trust the returns, are very great from year to year. During the three years ending 1892-93 the fall was scanty but in 1894 it was very copious. Some sickness prevails during the rainy season but not to such an extent as might be expected from the proximity of the hills and the general character of the tract.

Roads and Markets.

9. Means of communication, so far as the laying out of roads is concerned, are ample, the two important markets of Kollegal and Santimarhalli, upon which the people chiefly depend, being connected by a road which passes through the heart of the populated part of the Jahgir. The road between Yelandur and Kollegal presents natural difficulties,

the chief of which is the sticky nature of the soil, and is in bad order. Between Yelandur and Santimarhalli the road is in better order. A road, important only locally, leads from Yelandur to the foot of the ghats westward.

Statistics.

10. The following statement which is for the 22 villages under report only, furnishes some idea of the agricultural resources of the Jahgir :—

Villages.	Houses.	Population.	Square miles.	Cattle.	Ploughs.	Carts.	Markets.
1	2	3	4	5	6	7	8
22	5,451	27,532	51	17,366	3,609	1,793	1

Taking the arable area only, the population is 787 to the square mile, while to the whole area, it comes to 509 to the square mile. These are high figures and are not to be found anywhere else, for so purely agricultural a tract, in the whole Province. The number of carts too, 1,976, is very large for so small a tract. Altogether the evidences of agricultural prosperity are pretty conclusive. The villages, for Mysore, are fairly large and the houses of the raiyats are well built. In Chamrajnagar the population to the arable area is only 377 to the square mile against 787 in Yelandur. Of course the tract under report is very small as well as compact but even if compared with Santimarhalli, the best magani of Chamrajnagar, the difference in favor of Yelandur is very marked.

How divided up by survey.

11. The Jahgir has been divided up by survey as shown below :—

Description.	Area of Jahgir (Govt.) lands.		Area of Inam lands.	Total.		Grand Total area.
	Occupied	Waste.		Occupied.	Waste.	
1	2	3	4	5	6	7
Dry crop	15,386	394	355	15,741	394	16,135
Rice	4,874	34	466	5,340	34	5 374
Garden	657	4	43	700	4	704
Total ...	20,917	432	864	21,781	432	22,213
Area of roads, village sites, &c. unculturable						12,504
Area of alienated villages						30,341
Total area for the Jahgir, 102 square miles						65,058

The area of the Inam villages, made up almost wholly of Shribiligiri Rangaswamibetta, is, it will be observed, very great. Confining our attention to the 22 villages immediately under report, the area of arable land available for cultivation is inappreciable. The fact is, more land is wanted for this densely populated tract and there is none available excepting perhaps out of the forest which is now strictly preserved.

Incidence of the old assessment.

12. We come next to the incidence of the old assessment which I show maganiwar in the usual form, the survey acres being placed in juxta-position with the old collections under each head.

The average rates hitherto paid on both wet and dry lands, as ascertained by placing the newly ascertained survey area in juxta-position with the collections under each head, are not only very low, for so rich a tract, but present great inequality. Thus the magani of Yergamballi, although not so well situated, and possessing for the most part, only rain-fed tanks, has been assessed under the old system very nearly as highly as the Maganis of Yelandur and Agara with their superior soils and water-supply,

Past Revenue management.

13. A few words regarding the past revenue management will not be out of place here. In the absence of any reliable definition of area, there has been no sound base of revenue management and the incidence of the assessment has been very unequal. The maxima and minima rates of assessment as furnished by the Amildar, are given by Mr. Narayan Rao at para 14 of his report. These rates are extremely heavy on all descriptions of land and, if ever imposed, which I doubt, must have borne very heavily. No raiyat could pay such rates, all over his holding. Mr. Narayan Rao's notes, at time of test, the result of which is given in the same para, show that he found dry land paying an average of Rs.1-1-5, wet Rs.3-1-3 and garden Rs.2-14-5 per acre, and these are the rates which, in practice, will generally be found to be in force. I have not been able to ascertain, nor does it much matter, by whom the present assessment was originally fixed. It has remained unchanged since the Jahgir was first granted. The revenue has been very inelastic and there has been scarcely any increase, although very nearly the whole of the arable land is now occupied. I very much doubt if any account has been kept of lands newly brought under irrigation. The works of irrigation have been for very many years kept up, to such standard as they now exhibit, by the exertions of the raiyats, for I can find no record of any special repairs or improvements carried out by the Jahgirdar, nor yet of any systematic scheme of maintenance. The chief fault of the old assessment is its unequal incidence although, as a whole, it has been extremely moderate.

Dry	... 1	4	4	to	273	5	4
Wet	... 0	4	8	to	136	10	6
Garden	... 7	13	0	to	59	8	0

The inequality of the incidence of the old assessment on wet and gardens, I beg to illustrate, by a few typical instances as below :—

No.	Name of village.	Survey acres of wet and garden.	Old assessment of wet and garden.	Average rate per acre.	Remarks
				Rs. a. p	
1	Agara	1,091	4,953	4 8 8	Tanks channel-fed.
2	Yelandur	703	4219	6 0 0	
3	Ambli	330	2,430	7 5 9	
4	Yergamballi	312	1,369	4 0 0	Tanks rain-fed
5	Malharpalya	28	133	4 12 0	
6	Avalkandhalli	72	239	3 9 6	Partly dependent on channels.

Numbers 1, 2 and 3 have channel-fed tanks. Of these the best, Agara, has been assessed much lower than Nos. 2 and 3 and not nearly high enough as compared with No. 6. Again the lands of No. 5 which has only a small rain-fed tank have been paying more than first class lands like those of Agara, No. 1. No. 4, which also possesses only a rain-fed, although a good tank, has been paying more than superior lands like those of No. 6. In short the variations of assessment cannot be justified on any grounds whatever. Under such circumstances it will readily be understood how an equally distributed assessment, based on careful classification, will disturb the old state of things and also how much room there must be for legitimate and almost unavoidable increase of the existing assessment.

14. It may be interesting to see how far the occupied area has been correctly recorded in the old accounts. This will be seen from the following comparison of the "Bijwari," with the newly ascertained area.

Description.	Acres by old accounts	Acres by survey.
1	2	3
Dry	9,249	15,386
Wet and Garden	3,735	5,531
Total ...	12,984	20,917

Making every allowance for the fact that in every taluk taken up for settlement a great difference in the old and new area is found, the under-statement in this particular instance is very great. In the case of dry lands a large excess by survey may naturally be expected but in the case of wet and garden lands a more accurate record may fairly be looked for, especially in a highly cultivated and fully occupied tract like that under report where there is little room for encroachment.

15. The realizations for the past 25 years are shown below. Columns have been opened to show the ruling prices of the staple products during the same time, as also the rain-fall, so that all may be viewed at one glance.

Notwithstanding great variations in prices there has been, during the period under notice, a remarkable absence of fluctuation in the realizations. The increase year by year has been small but very steady. Resignations of such valuable lands as we have here are very uncommon. Remissions apparently have never been granted and, presumably, were unnecessary. It is possible, had the same policy been followed here as is followed in Government taluks, that some remissions might have been given in 1891 and 1892 when many tanks failed to fill. The raiyats are quite aware of the Government policy in this matter and represented to Mr. Narain Rao their claims to remissions. The opinion which I have

formed is that the tract under report has been most lightly assessed as a whole, and that the revenue has been paid without the slightest difficulty. Although prices have fluctuated greatly there has been no corresponding effect upon the collections. The truth is that the Jahgir is cultivated very nearly up to the full possible limit, the wave of cultivation, so to speak, neither advancing nor receding and, as a consequence, the revenue has remained stationary. Some increase of revenue might have been expected from the increased use of water for irrigation, but this source of revenue appears to have been neglected.

16. For the purpose of assessing the villages under report I propose to divide them into the following groups or classes :—

Grouping of villages for assessment.

Group.	No. of villages.	Maximum dry rate.	Maximum wet rate.		Maximum garden rate.
			Ordinary.	Channel.	
1	2	3	4	5	6
I	14	2 4 0	7 8 0	8 8 0	12 0 0
II	7	2 0 0	7 0 0		
III	1	1 0 0	6 8 0		

The grouping presents little difficulty. Naturally, the villages close to and on the high road to Kollegal and Yelandur, which hugs the river, come first. In the 2nd group 7 villages not quite so favorably situated have been placed and one solitary village, labouring under exceptional disadvantages owing to its isolated position amongst the hills, alone represents the 3rd group. One maximum rate of Rs. 8-8-0 for all channel irrigated wet land is proposed, whereever situated, but it so happens all this land is in group I. The maximum of Rs. 12 for garden will seldom if ever be attained, but I have kept it at that figure to meet exceptional cases. A comparison of the rates now proposed for Yelandur with those already proposed for Chamrajnagar is legitimate.

Taluk.	Group I.		Group II.		Group III.		Group IV.		Channel lands.
	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	
Yelandur	2 4 0	7 8 0	2 0 0	7 0 0	1 0 0	6 8 0	.....	.....	8 8 0
Chamrajnagar ...	2 4 0	8 0 0	1 14 0	8 0 0	1 8 0	7 0 0	0 12 0	7 0 0	9 0 0

The dry rates are very much the same in both cases, local exigencies alone calling for somewhat different gradations, but in the case of wet lands it will be observed that the maximum rates proposed for Yelandur are lower than those recommended for Chamrajnagar. The chief increase in Yelandur, as a result of the settlement, will be on the wet lands and bearing this in mind, and also the heavy labor in maintenance of works of irrigation which we can scarcely doubt has been hitherto thrown upon the raiyats, I think Government will appreciate the considerations which have induced me to keep the maximum wet rates in Yelandur a shade lower than those for Chamrajnagar.

17. The result of adopting the rates as above proposed will be as follows on the occupied lands : —

Group.	Villages.	Dry.			Rice.						Garden.						Total.		
					Ordinary.			Channel.			Ordinary.			Channel.					
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Also assmt.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.

I	14	8,664	11,314	1 4 5	838	3,540	3 15 11	3,337	21,313	6 6 2	165	621	3 12 3	436	2,658	5 13 3	13,710	39,452	2 14 1
II	7	6,493	7,349	1 2 1	649	2,402	3 11 3	...	.	...	36	135	3 12 0	...	...	..	7,178	9,885	1 6 0
III	1	29	15	0 8 3	...	.	...	...	...	...	...	..	.	...	..	..	29	15	6 8 3
3	22	15,388	18,677	1 3 5	1,537	5,948	3 13 11	3,337	21,318	6 6 2	201	756	3 12 2	456	2,658	5 13 3	20,917	49,352	2 5 9

It is not possible to contrast the new average rate on channel lands with the old rate on the same, as in the old accounts the necessary distinction between ordinary and channel wet land was not made. We must consequently view the new rates in the abstract. Channel lands, by which I mean lands

dependent either upon tanks fed from the river, or directly upon the feeders themselves, will under my proposals pay an average rate of Rs. 6 6-2, while ordinary wet land will pay an average of only Rs. 3-15-11. This difference will I think be admitted to be quite right and in neither case can the rates besaid to be too high. Garden lands as I have already observed are on the aver age inferior to the west lands, so much of it being merely hand-watered and consequently the average rate will only be Rs. 5-3-2 per acre. I need scarcely say that the best gardens have been assessed more highly than the wet lands but I am now writing about the *average* assessment. The average dry assessment of Rs. 1-3-5 per acre for such lands as we find in Yelandur must be regarded as very moderate indeed.

18. The small extent and assessment of waste lands still available for cultivation is shown below:—

Group.	Villages	Dry.			Rice.			Garden.			Total		
		Acres.	Assessment.	Average rate	Acres	Assessment	Average rate	Acres	Assessment.	Average rate.	Acres.	Assessment.	Average rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14

3	22	394	420	1 1 1	34	145	4 4 3	4	9	2 4 0	432	574	1 5 3

Most of the above, unless it is required for other purposes, will probably be applied for during settlement. The total extent however is very insignificant.

19. The extent and assessment of the minor Inam lands are next shown:—

Group.	Villages.	Dry.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.

				Rs. a. p.			Rs. a. p.			Rs. a. p.			Rs. a. p.
I	14	290	389	1 5 6	433	2,411	5 6 3	42	199	4 11 10	765	2,999	3 14 9
II	7	63	64	1 0 3	33	129	3 14 7	1	3	3 0 0	97	196	2 0 4
III	1	2	1	0 8 0	...	..	...	...	...	...	2	1	0 8 0

These minor Inam lands are somewhat important both in extent and quality. Having never been subjected to Inam enquiry or registration a careful scrutiny as to their tenure will be necessary during the introduction of the settlement.

20. The result of the proposed settlement on the whole area, Government, unoccupied waste and Inam, is shown in the following statement in contrast with the old collections in each group:—

Group.	Villages.	By old accounts.		By survey.							
		Bijvari area into Khandis.	Collections.	Jirayat (Government) occupied		Jirayat (Government) waste.		Inam.		Total.	
				Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.
1	2	3	4	5	6	7	8	9	10	11	12
I	14	2,112	26,755	18,710	39,452	249	377	715	2,999	14,724	42,828
II	7	493	8,570	7,178	9,885	183	197	97	196	7,458	10,278
III	1	...	...	29	15	..	...	2	1	31	16
3	22	2,610	35,325	20,917	49,352	432	574	864	3,196	22,213	53,122

The increase, as I fully expected, is chiefly in group I. The old wet assessment, in that group, of lands drawing their water-supply directly, or indirectly, from the river has been far too low. Group II which contains no such lands, but only ordinary wet land dependent upon rain-fed tanks, has had its assessment but very slightly raised.

21. The general effect of the proposed settlement will be apparent if placed in the following form. The distinction, in the old accounts, between wet and garden is so faulty that, for the purpose of comparison, I must include both under one head. The basis of calculation in each case is of course the survey area: —

Description.	By old accounts.		By survey.	
	Collections.	Average rate.	Proposed assessment.	Average rate.
1	2	3	4	5
Dry	14,304	0 14 10	18,677	1 3 5
Wet including garden	20,561	6 11 3	30,675	5 8 11

In the adjoining Taluk of Kollegal of the Madras Presidency, the settlement of which was dealt with in Resolution of the Madras Government, dated 16th June 1882, I find that, as a result of a settlement, professedly liberal, in concession to the admittedly backward condition of the taluk, the average dry rate per acre was Re. 0-14-11 and that of wet land Rs. 3-13-4. The rates ranged in the case of dry lands from Re. 0-4-0 to Rs. 1-8-0, and in the case of wet lands from Rs. 2-8-0 to Rs. 6-0-0. It must not be supposed that these are maximum rates corresponding to the maximum rates now proposed for Yelandur; they are rates actually imposed. In Yelandur, notwithstanding the excellence of the soil and water-supply, the full maximum rate has never been reached. The highest rate deduced from our scale for wet land has been Rs. 6-14-0 and the lowest Rs. 1-15-0, and for dry the

highest has been Rs. 1-15-0 and the lowest Re. 0-8-0. These, and not the maximum rates, must be compared with those I have quoted as imposed in Kollegal. That in Yelandur no lower rate for dry land than Re. 0-8-0 occurs is a clear proof of the uniformly high order of soils prevailing. Our classification scale is very comprehensive, making great allowance for the poorer soils, and in any ordinary taluks dry rates down to 2 and 3 annas per acre would have occurred.

22. The soils as well as the water-supply of the tract under report are far above the average and a very large proportion of the lands, both wet and dry, approach the top of our classification scale. No arable land remains unoccupied and the small compact block of villages under report is as thriving as any, of similar extent, to be found in the whole Province. Compare this state of things with Kollegal where, in 1882, more than half the arable land was found to be unoccupied and the condition of roads, channels and agriculture was in each case most unfavourably reported upon. We must not forget moreover that the average rates in Kollegal were worked out on a large extent of country of a very mixed character, by no means almost uniformly good like the small tract under report. Bearing all these facts in mind the average dry rate of Rs. 1-3-5 for Yelandur is relatively low as compared with Re. 0-14-11 for Kollegal. The difference in the average wet rates, Rs. 5-8-11 in Yelandur against Rs. 3-13-4 in Kollegal, is certainly considerable but not greater than the relative circumstances of the two tracts fully warrant. I have drawn the above comparison between Yelandur and Kollegal as being worthy of note, but, for justification of the rates which I have proposed, I look more to their moderation as compared with neighbouring rates in Mysore taluks fixed under the same system. They are lower than those recommended for Chamrajnagar which fit in almost to a meety with rates adopted and working well in already settled taluks.

Local cess.

23. The one anna local cess in 1892-93 realized Rs. 2,601; under my proposals the amount will be about Rs. 3,084 on Government occupied land and Rs. 200 on Minor Inams, in all Rs. 3,284.

Grazing

24. Grazing, but of course including "Amrai," for the unoccupied land is of very small extent, brought in, in 1892-93, Rs. 1,463. I will estimate for the same amount under the proposed settlement; for it is not safe to calculate upon more as a good deal of the unoccupied land may have to be set aside for public purposes.

Irrigation cess.

25. This cess is included in the assessment and will amount, as an annual transfer to the Irrigation Fund, at $\frac{1}{17}$th of the present occupied wet and garden assessment, to Rs. 1,804. The amount will fluctuate with the assessment but I shall be very much surprized if it is ever less than what I have now shown. I presume that the rigid expenditure of the Irrigation Fund on the same objects as those for which it is collected or rather set aside in Government taluks, must be regarded as part and parcel of the proposed settlement and will be binding upon the Jahgirdar. From what I know however of the present enlightened Jahgirdar such a stipulation would only fall in with his own views on the subject.

26. The general result of the settlement under all heads there will be as follows:—

		Rs.
Collections of 1892-93		35,325
Grazing do		1,463
One anna Local cess do		2,601
	Total ..	39,389
Survey assessment of occupied lands		49,352
Grazing		1,463
One anna Local cess		3,284
	Total ...	54,099

General result of settlement

Leaving out of calculation separately levied cesses and grazing, which last is the same in both cases, there is a net gain from the settlement of Rs. 14,027, but from this may fairly be deducted at least Rs. 3,000 required to place the pay of Shanbhogs and Patels on the same footing as that of the same officers in Government Taluks, and Rs. 1,800 credited to the Irrigation Fund. Not only will the gain to the Jahgirdar be reduced by the combined amount of the two above items, say Rs. 4,800, but the raiyats and village officers will be to a great extent benefited. The Shanbhogs, who at present get certain payments as well as "Masikamiki" (see Assistant's para 13) from the raiyats, may probably not fully appreciate the change to fixed pay but the Patels, who now get nothing, will have every thing to gain and nothing to lose, while the raiyats will be distinct gainers by no longer having to pay anything to the Shanbhogs. A judicious expenditure of the Irrigation Fund should also certainly tend to the gain of the raiyat. All things considered the increase by the settlement is not so great as at first glance it would seem to be. The Jahgirdar's gain comes down to Rs. 9,227. Even this sum however, I am fully aware, represents a very considerable increase and I should not have proposed so much had it not been that the result has been obtained as a result of adopting decidedly lower rates than in Chamrajnagar, indeed I think that the adoption of any other course would scarcely have been fair to the Jahgirdar. Of the success of the settlement I entertain no doubt, knowing, as I do, the value of the land we are dealing with and how moderate, notwithstanding the increase they involve, are the rates we are about to apply.

Inam villages.

27. In this Jahgir there are, as now measured by the survey, six Inam villages, two of which are Sarva Inam and four Jodi. All of these have been measured and classed and are ready for settlement. Before introducing the settlement however the holders of these villages will be put in possession of the probable result of the settlement, so that they may decide whether they will adopt such settlement or pay the expenses of measurement and classification. A record of all Inams will be prepared as soon as possible. A separate classwar statement is appended for the Inam villages in this Jahgir.

Conclusion.

28. In conclusion I beg very confidently to recommend for adoption the settlement which I have proposed. It will, I presume, be made clear that the Government considers it obligatory upon the Jahgirdar to place the remuneration of his village officers on the same footing as that of the same officers in Government taluks and also to agree to the Levy and disposal of the Irrigation Fund in the usual manner. The above two useful measures are so much apart of the survey settlement that without them it would be robbed of much of its expected advantages.

29. Appended will be found (1) the classing Assistants, report (2) sketch map (3) classwar statement of Jahgir villages, (4) a separate classwar statement for inam villages.

30. I propose to commence the introduction of the settlement immediately after I have completed that of Chamrajnagar, which latter I hope to commence about the 22nd October and finish about the 20th November next.

From A. Rangaswamiengar, Esq., Deputy Commissioner, Mysore to the Superintendent, Revenue Survey, No. 710, dated, Mysore, 19—20th October 1894.

I have the honor to acknowledge your letter No. 216, dated 25th September last, forwarding for my perusal your proposals for the revision of the assessment of the Yelandur Jahgir. Having received these papers during the busy time of Dasara, I have not been able to go through the qusetion as carefully as I should like and as the date of the proposed settlement is drawing near, I proceed to state my views for such consideration as you may be able to give them.

2. I have visited Yelandur on two occasions and have inspected some of the villages in the neighbourhood, and can bear out your statement that the Jahgir tracts are very rich and densely populated. Though somewhat out of the way, the tract had long ago attained a high state of prosperity which it has maintained unimpaired. The soil is of a very superior quality consisting mostly of the black cotton kind and capable of growing almost every kind of crop. The gardens also are good but are not quite so valuable as in other places. The wet lands are no doubt of good quality but water-supply is not so satisfactory. Except the Agara tank which receives an ample supply from the Honhole all the other tanks are shallow with earthen bunds which are not in very good order. As the country consists mostly of black cotton soil large quantities of silt are carried into the tanks by the drainage and the channels require annual repairs in addition to the temporary dams which have to be put up across the river. This silt clearing and other repairs are apparently carried out by the raiyats themselves.

3. All the villages of the Jahgir are within a short distance of the road leading from Kollegal to Santemarahalli. The portion of the road within the Jahgir however is not as good as it might be. Owing to the sticky nature of the soil and the scarcity of good road materials, road-making in these parts is no doubt costly and troublesome, but as it is of only a short length it should be capable of being maintained in better order. The communications between villages are also defective as the pathways are narrow and often obstructed. This probably accounts for the small number of country or chakra carts as compared with vaddar carts which are numerous.

4. The density of population is indeed very high, and may be taken to indicate a high agricultural prosperity. In the local enquiries I made I found however that the majority of cultivators were involved in debt and that the rate of interest was high ranging from 15 to 24 per cent per annum. I am inclined to believe that the pressure of population on land has received its maximum limit and that but for the disinclination of the raiyat classes to leave their homes, many would have emigrated to less populous tracts.

5. According to the survey, the arable area is found to be 22,213 acres, of which 20,917 is reported to be occupied. The increase in the occupied area discovered by survey as compared with the old measurements is remarkable. The acreage according to old accounts is 9,259 acres dry and 3,735 wet including garden, while according to the survey it amounts to 15,286 acres dry and 5,531 acres wet. The increase is about 66 per cent for the dry and 50 per cent for the wet and about 61 per cent on the whole. These ratios are higher than in any of the taluks recently settled in this District. From the fact of the Revenue collections having been uniform for a long period and the circumstance that this taluk was noted as a highly fertile and well cultivated tract about 100 years ago, it may be inferred that the raiyats have not encrouched upon waste lands and the excess in the area must be due to the liberal measuremnet adopted in former times. Even with this great disparity the average old dry assessment is pretty high as compared with the other taluks. The wet assessment too cannot be considered very light considering the situation of the taluk.

6. In the grouping of the villages, the proximity to the high roads and the facility of communications have very properly been considered. Villages separated from the road by the Honhole stream labor however under a disadvantage inasmuch as crossing the stream during the greater part of the year is somewhat tedious and difficult. Some of these villages might for this reason have been fairly transferred to the second group.

7. The maximum rates of assessment proposed for the different groups are certainly very fair, but I find that in fixing the assessment for individual holdings the average results have come out much higher than in any of the Taluks of the Mysore District already settled, or the neighbouring Chamrajnagar Taluk, the settlement of which is under consideration. It will be instructive to compare the

figures of the different taluks. We may take for the purpose the dry and rice lands and confine our attention to the villages of the 1st group alone in each Taluk, as they are likely to comprise the best and most favorably situated lands. In the following statement are given the maximum and average rates together with the percentage on dry and wet lands :—

Names of Taluks.	Dry rate.			Wet rate		
	Maximum.	Average.	Proportion of average to maximum	Maximum.	Average.	Proportion of average to maximum.
	Rs. a. p.	Rs. a. p.		Rs. a. p.	Rs a p

				10 0 0	6 8 7	66
Mysore	2 0 0	0 15 4	47	8 0 0	4 0 2	50·
				10 0 0	5 13 9	59·
Chamrajnagar	2 4 0	1 2 9	52·	8 0 0	3 12 7	47·
				9 0 0	5 3 0	57·
Yelandur	2 4 0	1 4 5	57	7 8 0	3 15 11	53·
				8 8 0	6 6 2	75·

It will be seen from this statement that the dry rates have nowhere exceeded 47 per cent, while in the neighbouring Chamrajnagar Taluk the percentage is 52. The proportion for Yelandur is however as high as 57. There is greater variety in the wet rates but the highest even in the channel rice lands for Seringapatam and Yedatore stand at 66 while it is as much as 75 per cent for Yelandur. Even if we take the figures for Chamrajnagar, the villages of the 1st group of which are close to those of Yelandur and possess almost the same quality of soil and climatic conditions, while if anything, they are better off as regards communications and proximity to markets, we find that with the same maximum dry rate the result obtained is Rs. 1-2-9 per acre as compared with Rs. 1-4-5 for Yelandur. The increase of annas 1-8 per acre seems rather high. The disparity is even greater as regards the wet lands. The maximum rate for channels is Rs. 9 per acre for Chamrajnagar, or Re. ½ more than Yelandur, while the average is Rs 5-3-0 as against Rs. 6-6-2 for the latter taluk. The same disparity is apparent even if the best villages in the Chamrajnagar should be considered. In all Chamrajnagar, the villages of Ramasamudram and Alur stand pre-eminently as the best both as regards soil and advantages of water-supply. The rates for these two villages are Rs. 5-5-5 and 5-14-2 an acre. The Ramasamudram tanks are being repaired at a great outlay and are supplied by the Hongalwadi channel from a masonry anikat, while Alur is irrigated by channels taken from Honhole direct with very little trouble, and even the sub-channels are repaired at the cost of Government. On the other hand, the Agara tank alone is supplied with water from a properly constructed anikat while for the other tanks excepting when the river is in flood earth dams have to be put up every year by the raiyats. The increase in the incidence of taxation in spite of the heavy labor of maintaining works of irrigation thrown upon the raiyats thus seems to be indefensible.

8. As a rule the value of rice lands depend principally upon the facilities of water-supply and proximity to important centres of trade. Yelandur must be admitted to be out-of-the-way and being far removed from any populous city is devoid

of facilities for procuring manure which is indispensible for sugar-cane and other valuable crops. From Mr. Narain Rao's report it will be observed that even under the Agara tank the rent for rice land is only 10 Kandis, or 8½ Pallas per acre. The rent paid under other tanks which are admittedly inferior to the Agara tank, must of course be still less.

9. I may also add that the rates appear to be heavy even as compared with those prevailing at Kollegal. The lands in and about Kollegal and on both sides of the road from Satyagal to Yelandur are of very good quality and in excellent cultivation and the difference between those rates and those proposed for Yelandur, if we bear in mind the generally higher rates of assessment adopted in the Madras Presidency, seem to be striking.

10. On the whole it will be seen that the proposed rates are much in excess of those proposed for the best tracts in Chamrajnagar and that in spite of the drawbacks to which the Jahgir raiyats are subject as regards communication, market and repair and maintenance of irrigation works, a revision of the wet assessment appears to be called for under the circumstances.

11. Coming now to the results of the proposed settlement there is an increase of assessment on the occupied lands from Rs. 34,805 to Rs. 49,352, *viz.*, Rs. 4,373 under dry and Rs. 10,114 under wet, or a total increase of Rs. 14,487. The actual increase upon the collections of 1892-93 is however Rs. 14,027. The percentage of increase for dry is 30 and for wet 49 or 45 on the whole. Deducting irrigation cess and amount to be set apart for the remuneration of Shanbhogs and Patels, the net increase amounts to Rs. 9,227 or 26 per cent without taking into account local cess. This is a high percentage of increase as results of recent survey settlements go, and are far in excess of the increase permitted by Government in this District. From the figures given in the margin it will be seen that the gross increase did not exceed 34 per cent while the highest net income was only 18 per cent.

12. On the other matters dealt with in your report, I have no remarks to offer.

13. The enclosures of your letter under acknowledgment are herewith returned.

From Survey Superintendent's No. 326— Bangalore, dated 30th November 1894, to the Chief Secretary to the Dewan of Mysore.

I have the honor to forward complete correspondence as per margin on the proposed revision of the assessment of the Yelandur Jaghir of the Mysore District.

1. Copy of Survey Superintendent's letter No. 216 of 25th September 1894.
2. Survey Superintendent's report No. 215 of 25th idem with its accompaniments.
3. Mysore District Deputy Commissioner's letter No. 710 of 19th October 1894.

2. The correspondence ends with the Deputy Commissioner's letter No. 710 of the 19th October 1894, in which, he takes exception not to the maximum rates, but to the results in other words to the classification, as will be apparent from the following quotation from para 7 of his letter. "The maximum rates proposed for "the different groups are certainly very fair but I find that in fixing the assessment "for individual holdings the average results come out much higher than in any of "other Taluks of the Mysore District already settled, or the neighbouring Chamraj-

nagar Taluk." The allusion to individual holdings is evidently a mistake, for we shall not know how the proposed settlement will affect individual holdings until the settlement proceeds more advanced. The Deputy Commissioner of course meant to allude to the results generally and perhaps in villages, the lowest unit with which my report deals.

3. The maximum rates being admitted to be very fair I might very reasonably deprecate any criticism of the classification which is a Departmental operation with which the Deputy Commissioner cannot be expected to be familiar, but rather than lay myself open to any suspicion of being desirous of foreclosing any discussion on so important a question as is involved in a suitable settlement of this Jahgir I will endeavour to remove the doubts which the Deputy Commissioner entertains and which, coming from an officer of his position and experience, must necessarily carry much weight.

4. The Jahgir is very small, very compact and very uniform, much more so than Chamrajnagar, in the character of its soils. No taluk in Mysore shows such uniformity and excellence of soil, combined, as does this little tract, and as the soil is of a very high order the average rate resulting from the adoption of even lower maxium rates than those applied to Chamrajnagar, comes out higher. The classification in all cases is precisely on the same basis and standard, and if in one taluk or village the average rates under the same maximum rates come out higher than in another taluk or village, it is simply because the soil, and in the case of wet land the soil and water-supply have been considered better in one case than the other and a higher value assigned: indeed were this not so, there would be little use in carrying out any classification at all. This view of the case disposes of the elaborate illustration which the Deputy Commissioner gives at para 7 of his letter of the percentage which the average rate bears to the maximum rate in the various taluks of the district; I never had the slightest doubt that the average rates in Yelandur, deduced from even lower maximum rates, would come out much higher than in Chamrajnagar and other taluks, for I knew that almost all the land in the former was of a very high order, while in the latter although some of the land was quite as good as in Yelandur, there was a large proportion which was inferior.

5. At para 11 the Deputy Commissioner shows the net increase, as a result of the introduction of the Survey Settlement, in certain taluks of the district. In three taluks the net increase was 18 per cent on the old collections while in Yelandur it is as high as 26 per cent. He remarks in the same para as follows:—"this is a large percentage of increase, as results of recent settlements "go, and are far in excess of the increase permitted by Government in this Dis- "trict." I was not aware that Government had laid down any rule or even expressed any views on this point. That in Yelandur, with maximum rates which are acknowledged to be perfectly fair and in keeping with those adopted in taluks already settled, the increase to the old demand should be greater, only points to the extreme laxity of the past revenue management. The increase of 26 per cent, as compared with 18 per cent in three Government taluks, although considerable, is not very startling when the circumstances of the Jahgir are fairly considered.

6. The Deputy Commissioner admits that the increase discovered by Survey in the recorded area, 66 per cent in the case of dry and no less than 50 per cent in the case of wet land, is greater than in any of the taluks recently settled in the District, and under circumstances, moreover, where such suppression of the true area was least to be expected. He adds that the excess discovered in area in this tract, which was fertile and well cultivated a hundred years ago, is probably due to the liberal measurement adopted in former years. This no doubt is to a great extent the reason, but that the valuable wet lands of this Jahgir should show an excess of 50 per cent on the recorded area is somewhat startling. As Government must have gathered from previous settlement reports I have never held the discovery of excess area to be a justification

for a proportionate addition to the Government demand but when, as in the present case, the excess is far above that discovered elsewhere, it cannot be a matter for surprize that the addition to the revenue, as a result of an accurate survey, should also be somewhat abnormal.

7. The lands under Ramsamudram tank and the wet lands of Alur have been cited by the Deputy Commissioner at para 7, as the best in the whole of the Chamrajnagar Taluk and the survey rates applied to them are said to be lenient as compared with those now proposed for the wet lands in Yelandur. As a matter of fact five tanks in Yelandur, *viz.*, Agara, Yelandur, Yeriyur, Maddur and Anble have had a higher assessment imposed upon the lands under them than that adopted for the Ramsamudra lands. In the case of the Agara tank the soil is inferior and the water-supply superior; in the case of the other four tanks the soils are superior and the water-supply inferior as compared with the Agara tank. The soil is so good in fact that as observed by the Deputy Commissioner they can grow any and every crop. The lands under the Agara tank, it being the end of the series, do not get the silt which so enriches the lands under the other tanks. Under all five tanks double crops are the rule and sugar-cane is regularly cultivated. The tank, in each case, is large in capacity as compared with the land dependent upon it. Now let us see what are the facts elicited as regards Ramsamudram tank during, and as a result of, classification. (1) The tank is small in comparison with the area to be irrigated. I have been assured on professional authority that, to do its work, the tank must fill and be depleted at least three times. (2) Only a portion of the lands under the tank can yield double crops. (3) The soil is far inferior to the soils under the Yelandur tanks. (4) The tank was nearly dry at time of classification in the month of February. (5) There was little or no sugar-cane cultivation. (6) The feeding channel is necessarily inferior in volume of water to the Yelandur channels used for the same purpose much lower down the river. These are some of the considerations which influenced the Classers' valuation of the soil and water-supply and which would not probably suggest themselves to the outside observer. As regards the Alur wet lands the soil is far superior to that under Ramsamudram, but there is no tank in which, as in the Ramsamudram lands and the lands under the large Yelandur tanks, the water can be stored, to be used late in the season. The rates in Alur are high owing to the high class of the soil. During the settlement of Chamrajnagar this month, I visited Yelandur and paid more particular attention to the Yelandur tank because I was told it was supposed to be the worst of the series as judged by the difficulty of obtaining cultivators. The land was under crop and the Amildar, who accompanied me, assured me that the cropping was incessant on the magnificent black soil under this and the other large tanks. All the tanks were full and the channels which fed them flowing. I could find no fault with the classification which had been carried out strictly according to Rules.

8. The Deputy Commissioner at para 10 expresses himself very strongly as to the necessity of revising (sic) the wet assessment proposed by me. As I have already stated, the maximum rates being admitted to be perfectly fair, the Deputy Commissioner's remarks can only be aimed at the classification and I think that 'Government may safely leave it to me to revise any classification which may appear in any way faulty. Should I find such a course necessary I will submit an amended classwar statement noting the difference in my total estimate'. With this proviso I beg to recommend the adoption of my proposals.

9. I think far too much has been urged against the condition of the roads, as compared with those in adjoining taluks. The road from Santemarhalli to Yelandur, when I used it this month, although bad enough, was infinitely better than the road from Chamrajnagar to Santemarhalli. The total length of the road between Santemarhalli and Kollegal, both important markets, is only about 12 miles. During the rainy season the roads both in Chamrajnagar and in Yelandur present great difficulties. I cannot agree therefore with the

Deputy Commissioner in the opinion he expresses, at para 19 of his letter regarding the drawbacks to which the raiyats are subject in the matter of communication and markets. Of course I am regarding the question from a comparative point of view as I presume the Deputy Commissioner is also doing. I think the Yelandur villages compare favorably in almost every respect with; and in some respects, population for instance, surpass, the adjoining villages of Chamrajnagar which constitute the 1st group of that taluk. Again I think that too much stress is laid, in a prospective settlement like this, upon the compulsory work which the raiyats are alleged to expend upon repair and maintenance of irrigation works. The Jahgirdar has furnished me with a detailed statement showing that during the last 19 years a sum of Rs. 28,221 has been spent upon improving tanks and channels in the Jahgir. The Amildar assures me that the work which the raiyats had to do in the way of repairing and maintaining irrigation works was not very different from what Government raiyats are often called upon to, or at any rate do, execute. I do not of course allude to large works like the Hongalwadi channel in Chamrajnagar but to irrigation works generally. According to the Gazetteer of 1876 (page 226) even in the case of the channels in Chamrajnagar the raiyats had to do the work of leading them from the river. My Assistant, and his statement is borne out in the Gazetteer (page 283), alludes at para 3 of his report to the ease with which the water flows into the channels from the river, the bed of the river and the channels being much on the same level. This is the work which is supposed to fall unduly upon the raiyats of Yelandur in comparison with the neighbouring raiyats in Government taluks.

10. I am fully aware that the proposed settlement involves a large increase but this is entirely due to the corrupt and lax management which has hitherto existed and not in any way to any special treatment differing from that followed in neighbouring taluks. On the contrary the maximum rates are decidedly low and I submit that these are what we must chiefly look to under a system of which the classification forms so important and recognized a branch. This operation has been most carefully carried out without the slightest departure from the rules, and is the basis of the settlement. I have not the slightest doubt in my own mind that the proposed rates are in themselves moderate. An increase in most cases is inevitable, manipulate the rates as we will, the old assessment having been so corrupt and inadequate. It must not be supposed however that the effect of the proposed settlement is to increase in every case, for instance in the village of Ambli the old average wet rate, on the survey area, is Rs. 8-10-11 per acre which we are now reducing to Rs. 5-12-9. Compare the old average rate of Rs. 8-10-11 per acre under the Ambli tank with the same rate of Rs. 4-8-11 under the Agra tank and Rs. 3-1-6 under Maddur tank and it will be at once apparent how unequal an assessment we are dealing with. Under the unusual circumstances of this Jahgir we must look to our rates being fair and moderate and I certainly see no better way of ensuring this result than by profiting by the experience gained in the neighbouring taluks and framing our rates accordingly.

11. As regards the Deputy Commissioner's remarks about the Kollegal Taluk I can only refer to para 21 of my report and repeat that a comparison on the points noted between a large and mixed taluk like Kollegal and a small selected tract like Yelandur can only mislead.

12. I had hoped to have been able to announce the new rates in Yelandur immediately after the completion of the Chamrajnagar settlement, but it was impossible, in the face of the views expressed by the Deputy Commissioner, to urge upon Government an early sanction until I had examined the classification papers once more and paid a visit to Yelandur which I was unable to do until I had completed the Chamrajnagar settlement. As Government is now in possession of our respective views, I shall feel greatly obliged by as early a decision as possible to enable me to announce the rates.

Report on the Yelandur Jahgir, Mysore District, classed by the E. Establishment, Mysore Revenue Survey, dated Bangalore, 23th July 1895.

The Jahgir is situated at the south-east cornor of the Mysore District and is bounded on the north and east by the Kollegal Taluk of the Coimbatore District, on the south by the Chamrajnagar Taluk and on the west by the Chamrajnagar and Tirumakudlu-Narsipur Taluks. It is, at least the cultivated portion of it is, very compact in shape and the Head-quarters which is at one end of the Jahgir is 42 miles from Mysore. It is divided into three Hoblis and contains 26 villages. The total length north and south is 16 miles and the breadth 11 miles. The total area is 58,955 acres or 92 square miles, of which 26,088 acres or 40 square miles is the extent of culturable land. The population of the tract is 31,753 being 323 per square mile of total area, and 794 per square mile of culturable area, the latter average being very nearly double the average for Chamrajnagar.

2. The eastern and south-eastern part of the Jahgir consists of part of the Bilagiriirangan range of hills whose slopes are covered with forest, more or less valuable. The remaining part of the Jahgir, amounting to nearly a half of it, is one plain, almost every inch of which is fertile cultivated land. Nearly the whole of the drainage of the Jahgir falls into the Hónholé which enters the Jahgir from Chamrajnagar and after passing through its length, enters into the Kollegal Taluk and there joins the Cauvery. The country being level and the banks of the Hónholé not being steep, arrangements are made by means of channels, dug to the level of the bed of the stream, to lead off water from the river to the larger tanks of the Jahgir.

3. There are five large tanks that are thus fed from the Hónholé, *viz.*, those at Ambale, Yelandur, Yeriyur, Maddur and Agara.

The channel feeding the Agara tank is taken from a masonry anikat across the Hónholé, near a point where it is joined by a stream which carries the leakage and surplus of two large tanks, one near Yergamballi and another near Gumbhalli. The Agara tank thus possesses an inexhaustible supply of water and lands below it are as valuable as, perhaps superior to, lands under the Cauvery Channels near Seringapatam. The supply of water to the other four tanks, though not quite so reliable as that of the Agara tank, is fairly good and, in good seasons, enough for two crops of rice or one crop of rice and another of green, black or Bengal gram in the cold weather. The channels feeding them being as already mentioned on a level with the bed of the river, water flows through them without difficulty whenever there is an influx of water into the river. When the rains cease, and there is only a small volume of water flowing steadily in the Hónholé, temporary earthen dams are thrown across it and water diverted to the tanks through the feeding channels. In good seasons, water flows in the Hónholé till January or February but, in seasons like that of 1891 and 1892, the volume of water in the river both when it is flooded and in the dry season is insufficient to fill the four larger tanks. It is possible and may be remunerative to make the supply of water to tanks, that are thus fed, more reliable, in fact, as good as the supply to the Agara tank, by constructing another masonry dam and thereby feeding, first the tank that is higher up in the series; say the Yelandur or the Amble tank, and then those below. I believe the Jahgirdar intends doing something in this way very shortly. Besides these large tanks, there are smaller ones, near Gandhalli, Alkere Agrahar, Ganaganur, Yergamballi and one or two other villages. They are very shallow and not of much value. There is some direct irrigation from the feeders of the Yelandur and Yeriyur tanks, the lands irrigated being chiefly betel-leaf, supari and cocoanut gardens, the former by the hand, and the latter by flow, whenever there is a considerable quantity of water in the feeding channels.

4. The rainfall is stated to vary from 10 to 34 inches. About 25 inches appears to be the average. The earlier rains begin in April and by the middle of July the Jola crop, which is the staple crop of the Jahgir, matures. During the

last three or four years, the rainfall was scanty. In 1890-91 it was 23 inches. In 1891-92 it was 18·49 inches; and last year it was only 9·63 inches. The consequence was that the larger tanks, except Agara, did not fill and dry crops were raised in lands below them. This year the early rains were very copious and when the Establishment moved out of the Jahgir, all the tanks were full and the waste weirs of several of them were discharging.

5. Jola, as already stated, is the staple crop. Gingelly (yellu) is also sown very early in the season. Togari, castor-oil seeds, black, green, Bengal and horse gram are also grown in large quantities. Ragi is grown but not to a very large extent.

In dry crop fields, as well as in rice lands, mulberry is very largely grown and a large quantity of silk produced. I met with no field with cotton crop. The land was quite suitable being good black soil. Perhaps the raiyats find mulberry more profitable. Near Kasba Yelandur there are good coconnut and arecanut gardens, along the banks of the Hónholé. Rice and sugar-cane are grown under the bigger tanks and rice under the smaller ones. In some places I found sugar-cane purely irrigated from wells. There are also numerous Pánvel gardens in almost all the villages.

6. The inhabitants of the Jahgir depend upon two markets for the disposal of surplus produce, *viz.*, Santimarhalli and Kollegal. Both are connected with Yelandur by a road which passes throughout the length of the Jahgir. Santimarhalli is 2½ miles from Yelandur and Kollegal 9 miles. The road between Santimarhalli and Yelandur is in good condition but the portion between Yelandur and Kollegal, lying in black cotton soil, becomes very sticky in wet weather and carts experience difficulty in passing over it in the rainy season. There is another road from Yelandur to the foot of the Biligirirangan hills much used by people resorting to the temple on the top of it.

7. In the eastern part, near the foot of the hills, the soil is red and sandy, but not very poor. In the other part it is all good black soil, a good portion of it being remarkably free from faults ordinarily to be found in similar soils elsewhere.

8. Besides silk, which is produced in large quantities, piece goods are manufactured in the Jahgir and sold at the nearest markets. A small quantity of brass is worked into lamps and vessels at Yergambalh. The chief imports are yarn, salt, and piece goods of the ordinary kinds and the exports are grains, jaggory, iron and silk.

9. The following shows the agricultural stock of the Jahgir :—

6,358	Bullocks.	4,296	Cows and Calves.
524	Buffaloes.	156	Ponies and Donkeys.
7,698	Sheep and Goats.	2,935	Ploughs.
38	Chakra Carts.	1,685	Vaddar Carts.

10. The local candy measures 84 seers.

The other measures and weights are the same as in the neighbouring taluks.

11. Dry crop lands are sub-let on the usual Vara tenure. In Agara rice land, is let out at 10 candis (Local) per acre; the lessor taking also half share of any second crop that may be raised in the land. Lands suitable for betel-leaf gardens are let out to Toreyars at rates varying from 18 to 25 Rs. per acre, the lessee paying rent only from the fourth year and only so long as the vines yield, which is generally ten years; after that the old vines are removed and new ones planted.

12. The prices of ragi and jola varied during the last ten years from Rs. 4-13-0 to 8-0-0 per candy of 160 seers. The average price was a rupee for 32 seers. The rates of wages were for skilled labor 6 to 12 annas and for unskilled labor 3 annas for men and 1 anna 8 pies for women.

13. The Patels get no remuneration whatever. The Shanbhogs are paid from 6 annas to Rs. 2-8-0 per mensem and take the Masikanike fee from raiyats besides.

14. The maxima and minima of the present rates of assessment furnished by the Amildar are as follows :—

Dry crop from	Rs.	1	4	4	to Rs.	273	5	4	per candy.
Rice	„	0	6	8	to „	136	10	6	do
Garden	„	7	13	0	to „	59	8	1	do

The averages of assessment of numbers brought under test are given below :—

15. The general condition of the people appears to be very good. The land is, as already stated, remarkably fertile, rainfall tolerably certain and markets near and easy of access. The villages are large and thickly populated, and the people generally healthy. Sickness prevails more or less during the rainy season and in the month of November, but not to such an extent as the proximity of hills and the large area under rice cultivation would lead one to suppose. The agricultural stock is fairly good though not quite suited to the proper cultivation of the rich lands that are to be found here. The houses too of the raiyats are well built and an air of plenty and ease pervades the whole tract.

No. 233-55—D. C., DATED, CAMP SULEBAIL, 16TH FEBRUARY 1896.

ORDER THEREON.—The taluk consists of 22 Jahgir villages and 6 alienated villages. With the exception of the Biligirirangan Hills, which measure 22,776 acres, the remainder of the taluk is the cultivated portion and is a compact block with a dense population and enjoying exceptional advantages of soil and irrigation. The 22 Jahgir villages contain an area of 34,717 acres or about 54 square miles. Their population is 27,532 or at the rate of 509 per square mile. Of the total cultivable area of 22,213 acres, only 432 are waste. The tract is watered by the Honhole from which shallow artificial channels are taken for irrigation and the annual deposit of silt from them highly fertilizes the whole of the lands they irrigate. Altogether, this small compact tract is one of the richest in the Province, enjoying a high degree of agricultural prosperity.

2. Under conditions so favorable, the past revenue history of the tract has been one of steady progress, though with so little land waste, the increase of revenue in 25 years has been only Rs. 2,034. Year after year the entire demand has been realized. Whether remissions or postponements were or were not necessary in particular years, there is no doubt that in no year was any difficulty experienced in realizing the entire demand.

3. The grouping of the villages presents no difficulty and 14 of the 22 villages close to the Kollegal-Yelandur road and the Honhole are very properly placed in the 1st group, one village among the hills comes in the 3rd group, while the other 7 come in the 2nd or intermediate group.

4. The maximum rates proposed by the Superintendent compare as follows with those adopted in the neighbouring Taluk of Chamrajnagar.

5. Applying the above maximum rates to the occupied area, the following results are obtained :—

	Acres.	Present.		Proposed.	
		Total Revenue.	Average per acre.	Total Revenue.	Average per acre.

6. The average rates under the proposed settlement are high. Compared with present collections, they show an increase of 30·90 per cent on dry and 49·44 per cent on wet and garden lands, the rise in total revenue will be 41·56 per cent. Compared also with settlements introduced in recent years in other taluks of the Mysore District, the increase proposed is striking as shown by the following average rates :—

	Dry average rate.			Rice ordinary average rate.			Rice channel average rate.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Seringapatam	0	12	6	4	8	2	6	10	3
Yedatore	0	12	1	4	0	0	6	8	5

Chamrajnagar	0	13	10	3	10	6	5	2	6
Yelandur	1	3	5	3	13	11	6	6	2

7. The average rate for dry is the highest for Yelandur. For ordinary rice, it is intermediate between Mysore and Chamrajnagar, while for rice under channel the very high rate of Rs. 6-6-2 is obtained which is lower only than for Cauvery irrigated lands in Seringapatam and Yedatore. The generally high average rates for Yelandur have however resulted by adopting maximum rates which are in themselves reasonable and which, as regards moderation, compare favorably with those for the other taluks named. The result is due to the fact that Yelandur is a specially selected compact small tract and the high quality of its soil is very uniform throughout, whereas in the other taluks named, there is much intermixture of good and bad land. Under such circumstances, the classification, of the Yelandur lands turns out to be exceptionally high. This is particularly the case under the five tanks named in the margin which are fed from the Honhole. Regarding these, Colonel Grant writes "under all five tanks double crops are the rule and "sugar-cane is regularly cultivated. The tank in "each case is large in capacity as compared with the land dependent upon it" and, after stating his general stisfaction with the classification made by the classing establishment, Colonel Grant adds "Government may safely leave it to me to re- "vise any classification which may appear in any way faulty. Should I find such "a course necessary, I will submit an amended classwar statement noting the "difference in my total estimate." Subject to this proviso, the Government resolve to accept Colonel Grant's proposals for the settlement of this Jahgir taluk.

8. The rules in force in Government taluks relating to the formation and utilization of an Irrigation Cess Fund, the general regime of channels and tanks, the conservancy of channels and removal of silt and weeds therefrom, the remuneration of village officers, and generally all incidents of the usual Survey guarantee, will apply to this Jahgir taluk, and its settlement will be for a period of 30 years.

9. The Jahgirdar proposes to construct and maintain masonry anikats and channels for the more efficient feeding of the Yelandur, Yeriyur, Maddur and Amble tanks and thereby to place these tanks in the same condition of advantage as the Agara tank. The Jahgirdars' enlightened policy in this direction commends itself to the Government. The works are calculated to save the raiyats a large amount of annual labor and their early execution will be a suitable return for the large increase of revenue which the settlement is expected to yield. Under such circumstances, the Government will gladly help the Jahgirdar with professional advice for projecting and executing the works required and also grant him permission when necessary to erect them outside the limits of the Jahgir.

10. The introduction of the settlement into the whole inam villages named is sanctioned, subject to the condition that the owners of such villages express their willingness to accept the same.

Proceedings of the Government of Mysore,

Correspondence ending with letter No. C. 80, dated the 4th February 1896, from the Conservator of Forests in Mysore, on the subject of the submission of statements of free grants of wood made to raiyats for re-building their houses destroyed by fire

No. 7376-84—Ft. F. 117-95, DATED, BANGALORE, 17TH FEBRUARY 1896.

ORDER THEREON.—In Government Proceedings No. 19242-50—R. 2765, dated the 20th April 1895, Deputy Commissioners of Districts were requested to submit, through the Inspector General of Forests, monthly statements of free grants of wood made to raiyats for re-building their houses destroyed by fire. These statements are not, however, being regularly received. The late Inspector General of Forests and also the present Conservator bring to notice certain inconveniences, and Colonel Walker suggests that it would suffice if these statements are forwarded by Deputy Commissioners to the Conservator quarterly, and a consolidated return be submitted, once a year, by the Conservator to Government along with the annual report as is customary in British India. Government are pleased to approve of this suggestion. A printed register should be maintained in the District offices in the prescribed form, and a copy thereof submitted to the Conservator at the end of each quarter, any case of excessive or irregular grant, noticed on a review of these returns, being reported by the Conservator to Government. A consolidated statement should be prepared by the Conservator and submitted to Government at the end of each year with his annual report.

PETITION.

Proceedings of the Government of Mysore,

READ:—

(1) Petition No. 3093, dated 20th May 1895, *from* Nagabhatta *alias* Gundabhatta of Jammittige Agrahar, Koppa Taluk, appealing against the order of the Deputy Commissioner, Kadur District, *fining petitioner* Rs. 20 *for obstructing a way on his lands* Nos. 34 *and* 36 *of Haribarpur.*

(2) Letter No. 56, dated 18th July 1895, from the Deputy Commissioner, Kadur District submitting the records of the case, and stating that at the Jamabandi of 1893-94, it was found that the petitioner had cultivated the way in question which was the bandh-sist between Nos. 34 and 36, and petitioner was fined Rs. 2 and ordered to leave the bandh-sist open; that at the Jamabandi of 1894-95 it was brought to the Deputy Commissioner's notice that the petitioner again interfered with the way and cultivated also the bandh-sist, and the petitioner was therefore ordered to pay a fine of Rs. 20 and remove the obstruction; that there are two guntas of kharab in No. 36 apparently on account of the way: and that the bandh-sist which petitioner professed not to know has been since pointed out to him.

(3) Docket No. 539, dated 16th September 1895, from the Superintendent, Revenue Survey, stating in reply to official Memo No. Pet. 545, dated 30th August 1895, that Classers' books show two guntas of kharab in Survey No. 36 deducted on account of the ground being broken up in places by small natural water courses; and that there is no deduction of kharab in Survey No. 34.

No. 7038-45—PET. 1393, DATED BANGALORE, 3RD FEBRUARY 1896

ORDER THEREON.—The order of the Deputy Commissioner cannot be supported. The statement of the case placed before the Deputy Commissioner was to the effect that the petitioner closed up and obstructed a pathway running in Survey Nos. 34 and 36 by planting a hedge across it, and that the fine which had been already imposed had no deterrent effect on him. The Deputy Commissioner thereupon found the petitioner guilty of having encroached upon the bandh-sist, and for closing up the pathway fined him Rs. 20. The report of the Superintendent of Revenue Survey places it beyond doubt that there was no deduction on account of any pathway in Survey No. 36, and that there is no deduction at all in Survey No. 34. It is wrong, therefore, to say that Petitioner Gundabhatta encroached upon any reserved unassessed land in his holding. Nor has he done anything which would be an offence under the Land Revenue Code or the Rules published thereunder. If he obstructed a pathway the remedy does not lie in the exercise of the Deputy Commissioner's revenue jurisdiction. It should be sought for elsewhere. The imposition of the fine is therefore unwarranted by law.

2. The fine is remitted and will be refunded to the petitioner.

Letter No. 2327—P. 465, dated 22nd August 1895, to the Deputy Commissioner, Kolar District, calling for a report with reference to orders issued on the revenue side in regard to a dispute between Giriga and Bhairappa of Iragappanhalli, Sidlaghatta Taluk, concerning a tamarind tree, which, according to the decision of the Chief Court in appeal No. 25 of 1894-95, belonged to Giriga but had been wrongly made over by the Revenue authorities to Bhairappa on the ground that it stood on the latter's land.

2. Letter No. 2299—603, dated 19th December 1895, from the Deputy Commissioner, Kolar District, submitting the records of the case, and stating that a complaint preferred in 1890 by Bhairappa against Giriga's interference with the produce of the tree was referred to the Amildar for thorough enquiry but no report was received from the Amildar P. Sitaramaiya; that Bhairappa having again presented a petition in June 1892, it was sent to the Amildar with the following order viz., "was the enjoyer paying any tax on the tree; if so he has no claim over it since the tax is "remitted. Fair valuation to be levied and the tree made over to the man in whose land it is "situated," and that thereupon the Amildar Rajagopalachar recovered Rs. 2 from Bhairappa as the value of the tree and made over the land to the latter, without submitting any report to the Deputy Commissioner.

No. 7724-5—P. 1546, DATED, BANGALORE, 25TH FEBRUARY 1896.

ORDER THEREON.—This report is as unsatisfactory as the proceeding adopted by the Amildar in this matter. There was an utter absence of method. The first petition brought no report from the Amildar, although one was called for, and on

the second, some general observations were made by the Deputy Commissioner which it is difficult to support on the basis of any rule or order. The result was that a party was made to pay money and a tree was illegally given to him. This tree has been since restored to the rightful owner in accordance with the judgment of the Chief Court but the illegal levy of Rs. 2 remains uncorrected. This amount must now be refunded to the party from whom it was levied.

2. Care should be taken not to interfere with established private ownership except under proper legal authority.

3. The conduct of the Amildars concerned is viewed with displeasure.

MUZRAI.

Proceedings of the Government of Mysore,

READ AGAIN :—

Government Proceedings No. 694-7—Muz. F. 36-93, dated 23rd December 1893, directing that the estates of the Sivaganga Matt be taken over under Muzrai management.

READ ALSO :—

Petitions No. 1220, dated 4th November 1895, and No 185, dated 6th January 1896, from the Priest of the Sivaganga Matt, praying for an early settlement of his debts from the revenues of the Inam villages.

No. 803-5—Muz. F. 36-93 DATED, BANGALORE, 1ST FEBRUARY 1896.

ORDER THEREON.—Under the orders conveyed in the Government Proceedings read above, the management of the Inam villages and lands forming the endowments of the Sivaganga Matt was taken over by the Muzrai Department in January 1894 and they are being administered by the Muzrai Superintendent through the Amildars of the several Taluks in which the lands are situated.

2. The total receipts of the estates during the two years they have been under Muzrai management have amounted to Rs. 13,995-5-1 according to the following particulars :—

	Rs.	a.	p.
Collections of the year 1893-94	6,039	0	9
Collections for 18 months from July 1894 to December 1895.	7,956	4	4
Total ...	13,995	5	1

Of this sum, Rs. 6,270-6-1 have been expended during the two years as particularized below :—

	Rs.	a.	p.
Establishment and Paditara charges in the Matt at Sivaganga.	346	8	0
Pay of the Gumasta employed in the Muzrai Superintendent's office to keep accounts of the Matt's estates.	330	0	0
Pay of the Gumasta and peon allowed to the Amildar of Nelamangala.	282	0	11
Allowance of 3 per cent on the net collections paid to the Gumastas in the other Taluks.	214	5	6
Payments to Government for Jodi, Local Cess, &c., on the Matt's lands.	1,706	14	8
Arrears of annuity paid to Vidyanidhi Vasudeva Sastri ...	78	12	0
Tasdik amount paid to Sangameswara temple in Kutlu, Magadi Taluk.	34	14	6
Personal allowance to the Priest of the Matt at Rs. 100 per month from September 1894.	1,500	0	0
Paid to the Priest for expenses of pilgrimage to Nanjangud, Paschimavahini and other places.	400	0	0
Disbursements made to the personal servants of the Priest towards the settlement of certain long standing arrears of pay.	1,180	12	0
Miscellaneous items such as contingencies, petty repairs to the Matt building, &c.	196	2	6
Total Rs ...	6,270	6	1

leaving a balance on hand of Rs. 7,724-15-0, which has been deposited in the Government Savings Bank.

3. In May 1894, the creditors of the Priest applied to Government for the adjustment of their claims against him from the revenues of the Matt's estates; but in reply, they were all informed that such revenue should, under the terms of the grant, be applied solely towards the maintenance of the stipulated charities, that no portion thereof could be paid towards the liquidation of the debts contracted by the Priest and that, therefore, they should only look to the Priest and his personal property for the adjustment of any claims they may have against him.

4. The Priest has since made several representations to Government stating that he is being greatly pressed and harassed by his creditors and praying to be freed from their molestation by an adjustment of his liabilities from the collections of the Matt's estate; and, in his recent petitions No. 1220, dated 4th November 1895, and No 185, dated 6th January 1896, read above, he further states that he has been compelled to give up his residence at Sivaganga and remain in Madras to avoid the importunities of his creditors, some of whom have obtained decrees against him in Civil Courts and that after much difficulty he has succeeded in pursuading the marginally noted seven creditors to accept 8 annas in the rupee of the principal amount due to them in full liquidation of their claims and prays that the Government will be graciously pleased to make such a settlement with all his creditors and thus enable him to return to Sivaganga and attend personally to the performance of worship and charities in the Matt. The seven creditors referred to by the Priest have also submitted separate petitions to Government expressing their willingness to forego all interest and accept one-half of the principal amount in full satisfaction of their claims in accordance with the wishes of the Priest.

1. Sivaganga Siddalingappa.
2. Sivaganga Nanjappa.
3. Ismail Sait, Mysore.
4. Seringapatam Gopal Rao.
5. Mysore Gopi Setti.
6. Guhum Nabi Saib, C. & M. Station, Bangalore.
7. Sahy Muhamad Abbu Bukar Sait, Mysore.

5. With reference to the above, the Government observe that no portion of the income from the Matt's estates could legitimately be expended for purposes foreign to the object of their grant. The function of the presiding Priest is simply to carry out such objects to the extent possible within the resources of the Matt. He has no right whatever to contract any debts on the security of the Matt's endowments, which, by the very nature of their grants, are inalienable. The claims of the creditors in the present case are, therefore, strictly speaking, quite inadmissable. But, however, taking into consideration the personal hardships experienced by the Priest, who is quite an inexperienced youth and who has been compelled to abandon his head-quarters for fear of his creditors and also taking into consideration the *extremely favorable* terms agreed to by the creditors themselves out of regard to the Priest, the Government are inclined to comply with the earnest request of the Priest in the matter of the settlement of his debts.

6. The Government are accordingly pleased to authorize the Muzrai Superintendent to investigate the claims of the several creditors referred to in para 4 above and after ascertaining the exact amount due to each by a careful examination of the documents and accounts that may be produced in support of their claims, adjust the same by payment of one-half of the principal amount exclusive of interest as agreed to by the creditors themselves, the money required for this purpose being met from the savings at the credit of the Matt.

7. The claims of *other bona fide creditors*, if any, may likewise be enquired into and settled by the Muzrai Superintendent, as the Matt's funds become available for the purpose, provided they also signify their consent in writing to accept one-half of the principal amount in full satisfaction of their claims.

"The Inam lands noted in the margin have been granted for the performance of the Khazi service at Hoskote: and at the Inam Settlement held in 1873, the lands in question have been registered under the head, 'Devadaya.' In August 1861, the petitioner's father and uncle who were then Khazis alienated the lands, Nos. 1 and 2, to one Rangaswamaiengar, under two separate mortgage deeds, each for Rs 250-0-0.

4	Kadguni ...	Wet ...	0 10	8 11 6

2. "The petitioner, Syed Ahmed, who is now the Khazi, states that his remuneration for the service he performs as Khazi has been materially curtailed by the alienation of the 2 Inam lands above referred to, and that the yield of the remaining 2 Inam lands is quite inadequate for his maintenance, and prays therefore that the Government will be pleased to cancel the mortgages in question and restore the alienated lands to him under the provisions of Rule II, Clau e B, of the late Chief Commissioner's Notification of the 17th November 1877."

3. "Krishnaiengar, the agent of the original mortgagee's sons, in whose possession the alienated lands now continue, declines to give up the lands unless he is paid a sum of Rs. 600,—Rs. 500 towards the liquidation of the original mortgage debts, and Rs. 100 for expenditure since incurred for the improvement of the lands. But the petitioner pleads inability to pay any portion of the mortgage debts."

4. "The Deputy Commissioner, in submitting the records of the case, solicits the orders of Government in the matter of the alienation of the Inam lands under advertance."

5. "The question is if the Notification of the 17th November 1877 above referred to applies to the present case.

No. 813—MUZ. F. 37-95, DATED, BANGALORE, 3RD FEBRUARY 1896.

ORDER THEREON.—The Government observe that the lands in question must be regarded as Devadaya, as the Khazi service to which they are attached partakes of the nature of religious service. The alienation was made in 1861, and under Clause B of para II of the Notification, dated the 17th November 1877, issued by the late Chief Commissioner under the sanction of the Government of India, the lands are liable to summary resumption and restoration to the Khazi service.

2. The Deputy Commissioner is accordingly directed to resume the lands from the alienees under the rules above quoted, and restore the same to the possession of the Khazi for the time being.

Petition No 170, dated 3rd August 1895, from one Dodda Muniyappa Setti and certain other residents of Chikballapur.

Kolar Deputy Commissioner's Letter No. 1291—209, dated 30th September 1895.

AND :—

The following note on the above by the Muzrai Secretary dated 23rd January 1896 :—

"On the 26th December 1892, two merchants of Chikballapur, by name Vankayalu Dodda Ranganna and Nagath Chikkanna presented a joint petition to the Amildar of Chikballapur offering to deposit Rs. 3,000 each, as an endowment for the purpose of feeding travellers and Sanskrit students in the Chattram at Chikballapur, and praying that the money may be received in the Government Treasury as a deposit on 5 per cent interest under the rules laid down in Government Proceedings No. 492-500—22, dated 9th August 1892.

2. On the same day, the Amildar received the sum of Rs. 6,000 from both the petitioners and reported the matter to the Sub Division Officer, stating that he would make the necessary arrangements to carry out the wishes of the donors, should the Government be pleased to accept the deposit. The Sub Division Officer took no action in the matter till the 19th April 1893, when he submitted the Amildar's report for the orders of the Deputy Commissioner. The

Deputy Commissioner then asked the Sub Division Officer to obtain from the donors a Muchalika binding themselves and their heirs not to demand the return of the deposit amount at any time, as laid down in Rule 4 of the Proceedings of the 9th August 1892, and also to report what arrangements would be made for the conduct of the feeding and for the proper supervision of the charity.

3. Though the foregoing order of the Deputy Commissioner was issued in May 1893, yet it was not until June 1894, that the Sub Division Officer referred it to the Taluk Amildar for enquiry and report, on the points referred to therein—the intervening period of nearly 13 months having been taken up in some minor correspondence between the Sub Division Officer and the Deputy Commissioner. There was then a further delay of about 6 months on the part of the Amildar to furnish the information called for by the Deputy Commissioner.

4. In the meanwhile both the Donors Dodda Ranganna and Chikanna died leaving behind them, heirs as shown below :—

(1)	(2)
Dodda Ranganna—*Wife* Nararamma. (*dead*)	Chikkanna—*Wife* Rudramma. (*dead*)
Son	
Dodda Hanumantappa—*Wife* Lakshmamma. (*also dead*)	No issues.
2 sons minors, under the protection of their mother, who, as natural guardian has obtained a certificate of guardianship.	

5. On the 16th December 1894, Lakshmamma, the guardian of the minor grandsons of Dodda Ranganna, represented to the Sub Division Officer of Chikballapur, that she did not like to devote the interest on the sum of Rs. 3,000 deposited by her deceased father-in-law for the feeding of travellers in the Chikballapur Chattram as desired in the petition of the latter, but that she wished to utilize the same for the purposes of Puja, Naivedya and feeding of pilgrims in the Sri Ranganathaswami temple at Rangasthala about 2 miles from Chikballapur. The Sub Division Officer then called upon the Amildar to enquire and report what the widow of the other donor Chikkanna had to say as regards the disposition of the amount of Rs. 3,000 deposited by him. The deceased Chickkanna's wife Rudramma, and the other members of his family unanimously stated that the deposit of Rs. 6,000 made by the deceased Chikkanna and his friend Dodda Ranganna should be utilized only towards carrying out the wishes of the donors themselves, *viz*—, the feeding of travellers in the Chattram at Chikballapur, which, they said, was already being conducted since February 1893, in anticipation of Government sanction to the payment of 5 per cent interest.

6. On this, the Sub Division Officer submitted the following report to the Deputy Commissioner in reply to the latter's reference made in May 1893.

> "Lakshmamma, guardian and mother of minor grandsons of the original depositor of Rs. 3,000, now wishes that the fund should be devoted to the feeding of travellers at the Rangasthala temple. She is the sole representative of Dodda Ranganna and it is from her the needful formal assignment of the funds has now to be obtained, without which the assignment would not become complete and Government control fully established over the funds. Her idea is, that, instead of feeding travellers at Chikballapur Chattram, the feeding should be at the temple. From her point of view, this proposal is doubtless preferable. The question is whether the representatives of the other depositor have a right to object to such disposal of that part of the funds which belongs to the representatives of Ranganna. I think not. Their request relates to their own money, and the accident of Ranganna and Chikanna having written a joint petition does not alter the ownership and the right of each depositor to dispose of his share of the money according to his best judgment. If Ranganna's representative should refuse to ratify the grant, the money will have to be returned to her."
>
> "Similarly Chikkanna's representatives are at liberty to devote their portion of the funds according to their wishes."
>
> "The representatives of both these depositors place the money under the absolute control of the Mysore Government for carrying out their objects which may be done by the Taluk Agency."

7. In the meanwhile on the 18th December 1894, a large number of residents of Chikballapur, on hearing of Lakshmamma's statement made before the Sub Division Officer requesting permission to change the mode of charity, sent a petition to Government praying that her request might be disallowed, and the endowment accepted by Government on 5 per cent interest, in view to carry out the *original* intentions of the deceased donors. This petition was referred to the Deputy Commissioner for report.

8. A month later, on the 14th March 1895, the Government issued an order directing the stoppage of the receipt of all further deposits under the rules laid down in Government Proceedings No. 493-500—22, dated 9th August 1892. Thereupon the Deputy Commissioner wrote to the Sub Division Officer to ascertain if the representatives of the two donors, in the present case, were willing to invest the amount of Rs. 6,000 deposited by the latter in Government of India 3½ per cent securities.

9. Lakshmamma, the daughter-in-law of the deceased donor Dodda Ranganna, deposed before the Amildar that she was unwilling to invest the amount of Rs. 3,000 deposited by the latter in the Government of India securities and requested that if the Government would not accept the deposit on 5 per cent under the rules of the 9th August 1892, the amount itself might be returned to her to be invested elsewhere on more favorable terms as an endowment to carry out her intended charities at Rangasthala. On the other hand the representatives of the other donor Chikkanna unanimously prayed that, considering that the 1st application of the donors was made and the money also paid to the Amildar in December 1892, when the rules of the 9th August 1892 were in force, the Government might be pleased to retain the deposit and allow interest on it at 5 per cent, per annum for the purpose of carrying out the wishes of both the deceased donors. They further added that, even in case the Government could not allow 5 per cent interest on the deposit, the money should not be returned but should still be retained by Government on such interest as might be allowed thereon under the rules in force and the income so derived utilized for the feeding of travellers in the Chattram.

10. The Deputy Commissioner to whom the records were submitted by the Sub Division Officer passed the following order:—

> "The undersigned cannot recommend the acceptance of the deposit under the order of the 9th August 1892, which has since been withdrawn.
>
> The deposit seems to have been received by the Amildar in December 1892, but this action on his part was not supported by any authority from Government or from this office.
>
> The necessary sanction could not be obtained in time owing to the non-receipt of the requisite information from the Sub Division Officer and it is now too late to seek the same.
>
> Under the circumstances, the amount must be returned to the proper heirs of the persons by whom it was deposited, if they are not willing to invest the same in the Government of India 3½ per cent securities."

11. Thereupon, Naranamma, widow of the donor Dodda Ranganna, petitioned to Government praying that the sum deposited by her deceased husband might not be returned to her daughter-in-law Lakshmamma, as directed by the Deputy Commissioner, but that it might be retained by Government for the benefit of the stipulated charity, on such interest as the Government might be pleased to allow under the rules in force. Another petition to the same effect was submitted to Government by Dodda Muniyappa Setti and three other residents of Chikballapur. In this latter, the petitioners state that several persons of Chikballapur have been contributing for the feeding of students and needy travellers under the belief that the deposit would be finally accepted by Government, and that if it is not now accepted, the institution which was started 2½ years ago by Chikkanna himself (one of the donors) will have to be given up.

12. The foregoing two petitions were referred to the Deputy Commissioner for report, with the remark that, if the money had been actually received by the Amildar, the same might not be returned to the heirs of the deceased depositors pending orders of Government. The Deputy Commissioner has now submitted the records of the case for the orders of Government.

13. The questions to be now considered are:—

(1) If the order issued in March 1895, directing the stoppage of all deposits under the Proceedings of the 9th August 1892, will affect deposits made prior to the publication of that order, but not formally accepted by Government during the life-time of the donors, owing to the unfortunate delay that has occurred in reporting the case for the orders of Government.

(2) If the heirs of one of the donors could be permitted to change the mode of the charity desired to be established by that donor during his life time.

14. It may also be remarked here that this subject of the feeding at the Chikballapur Chattram has been frequently represented to Government in successive Dasara Assemblies."

No. 829-30—Muz. F. 39-95, dated Bangalore, 10th February 1896.

Order thereon.—The Government observe that the delay in the final report of this case for the orders of Government is most unsatisfactory; but this delay should not be allowed to defeat the charitable intentions of the deceased donors, Vankayalu Dodda Ranganna and Nagarth Chikkanna. These men deposited Rs. 6,000 on the 26th December 1892 for certain expressed charities, *viz.*, the feeding of Sanskrit students and needy travellers at the Chikballapur Chattram; and these deposits must be accepted at 5 per cent interest under the rules of the 9th August 1892 with effect from the date on which the money was paid into the Taluk Treasury.

2. The heirs of the original depositors cannot be allowed to modify the nature of the intended charities which should be carried out in strict accordance with the expressed wishes of the depositors Dodda Ranganna and Chikkanna above referred to.

Muzrai Secretary.

READ:—

Petition No. 596, dated 10th May 1892, from Sankara Sastri, Agent of the Kudli Sringeri Matt, Shimoga District.

AND—

The following letter No. 706—33, dated 23rd December 1895, from the Deputy Commissioner, Shimoga District, reporting on the above.

In returning herewith the original petition of Sankara Sastri of the Kudli Sringeri Matt, received with your official Memorandum of the 10th August last, I have the honor to inform you that the Revenue Records and correspondence connected with the Inam lands mentioned in the petition, having formed exhibits in Civil Original suit No. 279 of 1890, on the file of the Shimoga Munsiff, have been destroyed by the District Court, under Civil Rules of Practice, after final adjudication of the matter.

2. Two files of Civil Records that have been preserved in the Central Record Room are herewith transmitted for perusal and return. So far as I gather from these records, the circumstances of the case are as follow:—

3. Prior to the year 1822, His Highness the late Maharaja Krishna Raja Wodeyar Bahadur, granted to the Sringeri Matt at Kudli in the Shimoga Taluk, the five villages of Settihalli, Javalli, Machenahalli, Kanasikatte and Malalakoppa, on Jodi tenure for the maintenance of the religious services in the institution. The total assessment and Jodi amount as recorded by Inam and Revenue Survey Departments are as follow:—

No.	Name of Village.	Assessment.	Jodi payable to Government.	Jari amount in favor of the Matt.
		Rs. a. p.	Rs. a. p.	Rs a. p.
1	Settihalli	643 7 0	142 5 0	501 2 0
2	Javalli	621 9 4	154 12 0	466 13 4
3	Machenahalli	582 6 6	113 7 0	468 15 6
4	Kanasikatte	623 9 10	120 11 0	502 14 10
5	Malalakoppa	314 4 1	82 0 0	232 4 1
	Total ...	2,785 4 9	613 3 0	2,172 1 9

4. In the year Swabhanu (1822,) the Guru, who then presided over the Matt, gave away by way of gift to 12 different individuals some lands in each of the said 5 villages and the donees and their descendants have since then, up to the present date been in enjoyment of the lands.

5. Under orders of the Government of India, a Notification, dated 17th November 1877, was passed by the late Chief Commissioner, ruling that lands of this character alienated prior to 31st January 1859, but within 50 years computing the period of possession up to 14th December 1867, should be confirmed to the alienee on condition of his paying direct to the institution from which the land was alienated, a Jodi of one-half the assessment. On the complaint of the successors of the former Guru, who made the alienation, the question of assessing the alienated lands became subject of discussion from 1881 to 1888, when the then Deputy Commissioner proposed to make the alienees liable for payment of Rs. 294-5-0 to the Matt according to the following calculations:—

1	2	3	4	5	6	7	8
Total assessment of the Matt lands in 5 villages.	Total Jodi payable by the Matt to Government.	Survey assessment of the alienated lands in 5 villages.	Proportionate Jodi payable to Government through the Matt on the alienated land.	Balance forming the aliene's Jari land.	Moiety of the amount in column 5 payable by the aliene to the Matt.	Other moiety confirmed to the alienee.	Total liability of the alienees to the Matt, columns 4 and 6.
Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
2,785 4 9	613 3 0	485 0 4	188 10 0	361 6 4	180 11 0	180 11 0	294 5 0

6. The above proposal was submitted by the then Deputy Commissioner to the Inam Superintendent with his letter No. 763 of the 28th November 1891. The Inam Superintendent in his reply No. 185 of the 17th December 1891, approved of the correctness of the Deputy Commissioner's calculations. This I gather from the entries in the correspondence Registers, as the originals have been destroyed by the Chief Court.

7. Final Kulwar and Fieldwar Statement in conformity with the above calculations was issued by the Deputy Commissioner on 25th November 1888. The alienees having objected to abide by this settlement, the Guru lodged a suit in the Shimoga Munsiff's Court in 1890 against one of them for the recovery of Rs. 158-10-0, being 9 years' dues at Rs. 17-10-0 a year according to the above settlement. The Munsiff in O. S No. 279 of 1890 gave a decree in favor of the Matt, the Plaintiff. In * appeal and second † appeal, the District Judge and the Chief Court held that the calculations which governed the settlement was wrong and that the alienee was liable to pay to the Matt only half of the assessment of the alienated land within the meaning of the Notification of November 1877 quoted in para 5. The assessment of the lands held by the defendant in the said suit being Rs. 29-8-0 the above decrees had the effect of reducing the amount of the Deputy Commissioner's settlement from Rs. 17-10-0 to Rs. 14-12-0. The plaintiff's counsel argued before the Chief Court that the settlement made by the Revenue Officers was final and not subject to revision by a Civil Court under Clause 6 of Section 221 of the Land Revenue Code. But the Chief Court held that, as the records did not show that the settlement received the sanction of Government or that it was adopted under its authority, the Civil Court was not debarred from entertaining objections to the same.

* No. 158 of 1840.
† Nos. 10 and 27 of 1891.

8. The petitioner's present prayer is that the Government may accord their sanction to the settlement. From the foot note attached to the Kulwar Statement, authenticated copy of which forms enclosure to the petition under report, it would appear that the Matt's first complaint on the subject was made to Government, who, in their Proceedings No, 6123-181 of the 1st November 1881, directed the disposal of the matter under the Notification of November 1877. The question now is whether the calculation of half assessment made by the Deputy Commissioner or that adopted by the Civil Court favorable to the alienees is correct. As the original letters are not forthcoming, I am unable to say on what principle, the then Deputy Commissioner (Mr. Madhava Rao) apportioned the proportionate jodi due on the alienated lands and half of the wet asessment due from these lands as the jodi on half assessment payable by the alienees under the Notification. This has been approved by the Inam Commissioner also. But on a literal interpretation of the Notification and of the correspondence on the subject, the calculation adopted by the Civil Courts, appears to me to be in accordance with the rules.

No. 831-2—Muz. F. 40-95, DATED BANGALORE, 10TH FEBRUARY 1896.

ORDER THEREON.—The Government observe that under Rule II, clause A of the Notification, dated 17th November 1877, issued by the late Chief Commissioner with the sanction of the Government of India, the alienees are liable to pay to the Matt only one half the assessment fixed on the alienated lands, and are not to pay in addition any portion of the jodi imposed thereon, the whole of which should be paid to Government by the Matt itself.

2. The Government therefore see no reason to interfere in the matter and the petition is accordingly rejected.

A. SREENIVASSACHARLU,
Muzrai Secretary.

To—The Deputy Commissioner, Shimoga District returning the enclosures.
The Inam Superintendent in Mysore, for information.
